New Mexico Oil Conservation Commission  
 P. O. Box 871  
 Santa Fe, New Mexico

Attention Mr. Daniel S. Nutter

Re: James H. Simpson No. 1,  
 Section 22, T-10-N, R-23-E,  
 Guadalupe Co., New Mexico

Gentlemen:

Please refer to our letters to you dated August 25, 1955, April 2, 1956 and May 7, 1956 and your letter of September 1, 1955, all on the same subject as above.

After having filed Form C-103, Plugging Report, we found there would be a delay in approval of this report until the drilling rig could be moved, the pits filled, the location cleared of debris, and the location marker installed. Our letter of April 2, 1956 notified you that this work had been completed. Our letter of May 7, 1956 called your attention to the fact that we had not received approved copies of our plugging report. This is to notify you that we still have not received this report. It is our belief that the well has been properly plugged and the location properly cleared and marked in accordance with the Conservation Commission requirements. If such is not the case, we are anxious to correct the deficiency. If the work has been done in a satisfactory manner, we would appreciate receiving an approved copy of the Plugging Report for our file.

Yours very truly,

GENERAL CRUDE OIL COMPANY
