Fort Sumner, New Mexico

Re: New Mexico 0973

Dear Sir:

Your Sundry Notice and Report on form 9-331a covering your well No. 2 Watkins located on the subject leasehold in the SW 1/4 sec. 26, T. 5 N., R. 23 E., Guadalupe County, New Mexico, is hereby approved as a subsequent report of setting and cementing pipe only and not as a subsequent report of water shut-off.

Please submit a Subsequent Report of Water Shut-off stating the method used for testing for water shut-off and the results obtained from such tests both before and after drilling the plug.

For future reports please note the location corrections I have made in ink on the enclosed copy, which corrections correspond with the location as shown on the surveyor's plat submitted with your Notice of Intention to Drill. If these corrected figures do not check those contained in your records, please advise.

Also, it is requested that you sign all copies of such reports submitted.

Very truly yours,

H. A. DuPont

H. A. DUPONT
District Engineer
