Mr. Foster Howell, General Manager
Dornin Drilling and Exploration Company
C/O Coronado Courts
Fort Sumner, New Mexico

Re: New Mexico 0973

Dear Mr. Howell:

Receipt is acknowledged of your Subsequent Report of Water Shut-Off dated July 24, Lessee's Monthly Report of Operations for June and Log of Well covering your No. 2 Watkins located on the subject leasehold in the SW1/4 sec. 26, T. 5 N., R. 23 E., Guadalupe County, New Mexico.

Returned herewith is the Log of the well, which should be retained by you until you have reached temporary or permanent drilling depth. At such time, the Log should be completed in detail and re-submitted to this office within the 15-day period allowed under Section 221.59 on page 17 of the Oil and Gas Operating Regulations.

As your Monthly Report for June merely referred to the Log, I have copied the pertinent information thereon from the Log form.

Also enclosed is one approved copy of your Subsequent Report of Water Shut-Off for your records. For future reports please note the location and lease number corrections I have made in ink on the approved copy.

Your cooperation in the future in submitting the various reports promptly as they become due will be greatly appreciated.

Very truly yours,

H. A. DuPONT
District Engineer
