Dear Sir:

Please find attached your approved copy of form C-103, report on results of plugging the above captioned well.

I assume that the cellar at this location will be filled up simultaneously with the mud pits. I suggest that the fence around the well site, which is partially down during the dismantling, be left in good condition. It will have to be completed to include that opening used for an entrance to the site, naturally for the protection of the land owner.

Your filing of form C-105, Well Record, is expected at this office very shortly.

Very truly yours,

EUGENE A. CHAVEZ,  
Geologist, District 4
