Attn: E. A. Chaves

Gentlemen:

This is to advise you that we are spudding in on our Smith No. 1 to be located in the SW/4 NE/4, Sec. 15, Township 7 North, Range 22 East, Guadalupe County, this afternoon. The "Notice of Intention to Drill" which you returned to us specified that we are to sack samples at 5 foot intervals from surface to total depth.

It was our intention to catch samples at a larger interval. We will probably be catching them for our office and for offices of others at 10 foot intervals. I wonder if our regular sample catching program would not be adequate for your office. Also please advise us where these samples are to be delivered to you.

Very truly yours,

BAKER & TAYLOR DRILLING CO.
