New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Gentlemen:

We plan to drill an oil well in the SW/4 of the NE/4, Section 15, Township 7 North, Range 22 East, which is located in Guadalupe County.

If you have the information, we would appreciate being informed as to what depth surface casing would have to be set at this location in order to protect fresh water sands. If your office is not in a position to give us this information, would you please forward our letter to the proper agency and also let us know to whom we should address requests of this nature in the future.

Very truly yours,

BAKER & TAYLOR DRILLING CO.
