## OIL CONSERVATION COMMISSION

P. O. BOX 871

## SANTA FE. NEW MEXICO

October 10, 1956

Schwarts Carbonic Company P. G. Box 1702 El Paso, Texas

Attention: Mr. J. T. Crow

Centlemen:

Enclosed herewith are your approved cooles of the various Commission forms pertaining to your Libby No. 1-X Well, which you drilled in the SW/h ME/h of Section 30, Township 20 North, Range 31 East, Harding County, New Mexico, during the past summer.

We would also appreciate receiving, as requested in our letters of June 26 and June 27, 1956, Forms C-102, Notice of Intention to Plug, and C-103, Report of Plugging, for your Libby No. 1 Well, located 13 feet South of the No. 1-X Well, in order that we may close our files on the abandoned hole.

Also please be reminded that Schwartz Carbon Company is delinquent in the filing of Commission Form C-11h, Extraction Plant Monthly Report, for the entire time during which you have operated your plant at Eusyeros. The quote our letter of June 26:

"Please fill out and return one copy of the C-llh for each month since you assumed operation of the plant. Rule 1113 of the Commission's Rules and Regulations requires that this monthly report be filed with the Commission on or before the 15th day of the next succeeding month. Please report plant intake and residue in MCF of gas at 15.025 psia and 60°F, and plant production in pounds of dry ice or gallons of liquid CO<sub>2</sub> as the case may be."

Inamuch as any operator who fails to submit this monthly report subjects his plant operations to the hazard of being suspended by order of the Commission, it behooves the operator to comply with the above-described requirement,

We trust that we may hear from you in the near future.

Very truly yours,

DANIEL S. NUTTER Oll and Gas Inspector

5. According to our records, no C-103 nor C-110 has been received covering change of ownership of wells taken over by Schwartz Carbonic. Please fills these forms for any wells which you have acquired within the State of New Mexico.
