Attention: Mr. R. R. Spurrer:

Dear Mr. Spurrer:

We are contemplating the immediate repair of the three Carbon Dioxide wells located at our plant in Harding County, New Mexico.

From our understanding based on information and opinions by yourself and others we believe it necessary to cement well, Libby number 1 (#1) and put in bleeder strings in all three. Of course we will not know what is required until after the examination, which has been started to-day.

Any information, recommendations, suggestions, or assistance you can give us in carrying through this operation will be greatly appreciated.

Yours truly,

Iceco, Incorporated
