RE: Adams & McGahey Minerals #1,
16-21N-30E, Harding County, N.M.

Dear Mr. Utz:

Enclosed you will find a photostatic copy of survey plat prepared for us by D. S. Durrin on September 10, 1950. You will note that Mr. Durrin set the location of the well 300' south and 300' west from true center. However because of the danger from Ute Creek we moved the location approximately 350' east making the location of this well 300' south and about 50' east of true center. We had to go a little east beyond the danger point of Ute Creek because of a wash.

Yours very truly

Adams & McGahey
