The Business that Service Built

406 SOUTH BOULDER—TULSA, OKLAHOMA 74103

March 7, 1968

Mr. James A. Talley
314 General Finance Bldg.
Beaumont, Texas

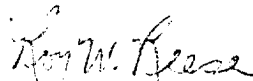

Dear Mr. Tally:

Your M. B. Edmonds re-entry No. 1 Well, located in Harding County, New Mexico, was plugged in the following manner: A 25 sack plug was spotted in the bottom of the surface casing at approximately 200', and a 10 sack plug was placed in the top of the surface casing, as per instructions from the New Mexico Conservation Commission.

An agreement was reached with Mr. Bryan Williams, a dirt contractor from Logan, New Mexico, telephone number 487-2815, whereby Mr. Williams would check the pits periodically, and, as soon as the pits are dry enough to fill, he will close the pits and level the location to the satisfaction of the rancher Arthur Cain. Mr. Williams agreed to do this job for \$200.00.

It was a pleasure to work for you on this project and we look forward to serving you again in the near future.

Yours very truly,

Roy W. Reese
Area Supt.
