Dear Mr. Haskins:

Oil Conservation Commission Order R-4897 specified that your Arthur Cain Well No. 1 would be plugged prior to February 1, 1975. However, your request of January 10, 1975, asking for an extension of time in which to accomplish this plugging has been granted and the deadline is now May 21, 1975. In the meantime, it would be advisable for you to furnish this office with such reports as are required by State regulations, and which were requested by my letter of August 16, 1975.

Kindly advise the status of your negotiations as outlined by your letter of January 10th, and when plugging operations are due to be initiated, inform this office accordingly.

Yours truly,
