Ed Schmidt (USGS, Durango) was this day notified by telephone that Panhandle Pluggers, Inc., will be in vicinity of two abandoned federal wells on Cain Ranch about 3/29 or 3/30 - 1979. If USGS wants their wells plugged then, I will supervise for them. If interested, deal with Haskins and/or P.P.I. directly and advise me of decision.

If wells are not plugged at this time, I will not volunteer to oversee such plugging later.

Both wells nearly full of salt water and near ranchers' fresh water wells.
