

## OIL CONSERVATION COMMISSION

STATE OF NEW MEXICO P. O. BOX 2088 - SANTA FE

87501

LAND COMMISSIONER PHIL R. LUCERO

STATE GEOLOGIST EMERY C. ARNOLD

August 25, 1976

State # 1-X M-27-16N-33E

Conley & Associates, Inc. 9402 Tierra Blanca Drive Whittier, California

Gentlemen:

This will acknowledge receiving the various forms, reports and logs which were sent (postmarked) from California on August 20th, last.

Please be advised that much required information is lacking and some data provided appears to be in error. The only report which can be approved at this time (Form C-103, Cain Well No. 1, J-10-15N-33E, Change Plans) is enclosed. Copies of various other reports (with notations) are also being sent for your information and guidance.

Summaries and/or abstracts of certain New Mexico regulations were submitted to you with correspondence dated June 4th and July 7th of this year. A complete set of rules governing oil and gas operations in this state were provided you before your drilling here commenced. Therefore, the Commission is not now justified in accepting incomplete or inaccurate reports for its files. Kindly give particular attention to Rule 107, part c; Rule 202, part a, paragraph 2; Rule 1103, Section B, paragraph 4; and Rule 1105, paragraph 2 of the Oil Conservation Commission Regulations when preparing additional reports thus saving yourself and this agency a needless expenditure of time and money.

The quality of data available in this office is only as good as operators provide. Therefore your cooperation in the above discussed matter will be appreciated.

Yours truly,

CARL ULVOG District IV Supervisor

CU/jr
