Harding County, NM  
  
2) Santa Fe "A" Well No. 1  
G-27-5N-7W

Dear Mr. Startz:

A recent inventory of our electric logs have indicated that this office has of yet to receive the required logs on the referenced wells in Harding County, New Mexico.

If reclamation of your drill hole location on the Santa Fe "A" Well No. 1 has been completed, please advise this office and an inspection will be made as soon as possible in order that this well file can be closed.

Your assistance on these matters would be greatly appreciated.

Sincerely,

A handwritten signature in cursive script, reading "Roy E. Johnson".

ROY E. JOHNSON  
Petroleum Geologist
