New Mexico Oil Conservation Commission  
Santa Fe, New Mexico 87501

Attn: Carl Ulvog, Dist. IV Supervisor

Gentlemen:

Thank you for your letter of February 28 regarding the disposition of bore-hole in Section 9, T21N, R29E, Harding County, New Mexico. It is my understanding that the well has been plugged back to 1150 ft. This was done in late December, 1982. There has been nothing done whatsoever as of this date to the surface. The area around the well has not been put back to its original condition. I have asked several times when they would do this and was told it would be in the spring. I have asked them to do it as soon as possible so that the scar could begin to heal and vegetation be started. When they have done this I will be glad to notify you.

Thank you for sending me a copy of the contract as I had requested a copy on the day I signed it but have not received one.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "C. J. Clavel". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

C. J. Clavel
