Mr. F. N. Shumaker
c/o Carbonic Chemical Corp.,
Box 139
Raton, New Mexico

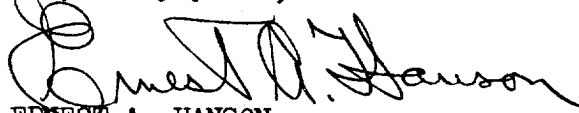

Dear Sir:

Mr. H. D. Pennell of the Amerada Petroleum Corporation advises that on a recent trip to northeast New Mexico, you were kind enough to furnish him certain information regarding operations in the Bueyeros area, and that you also agreed to save a set of cuttings from the well you are now drilling in Sec. 9, T. 18 N., R. 30 E. for the New Mexico Oil Scouts Association. Inasmuch as we are a member of the Scouts Association, and partially depend upon that source for certain data on wells drilled on State and fee lands, in order to make our records as complete as possible, we wish to express our personal appreciation for any assistance that you have given or may see fit at any time to give representatives of the New Mexico Oil Scout Association.

Our Mr. J. A. Barnett plans on making a trip through the northeastern part of the State within the next few weeks, and will at that time get in touch with you at Raton.

If we can at any time be of service to you, please call on us.

Very truly yours,

ERNEST A. HANSON,
Supervisor, Oil and Gas Operations.
