Dear Mr. Gruernerwald:

A recent field inspection has been made on the above referenced wells and it was observed that those wells still had well heads on them. Be advised that the authorization for temporary abandonment of these wells expired April 8, 1978.

In order for the New Mexico Oil Conservation Division to close these files, these wells must be plugged, converted to water wells, or turned over to the rancher to let him use the gas.

Your assistance in help us close these well files would be greatly appreciated.

Sincerely,
