Dear Mr. Gentry:

This letter is to inform you that more than thirty days have elapsed since the completion of the above-referenced wells. Accordingly, Rule 202 of the State of New Mexico Oil Conservation Division Rules and Regulations state that a copy of electric logs must be submitted by the District Office and a field inspection of the drill sites must be made before final approval of plugging and abandonment can be made.

Your assistance in helping to close our files would be greatly appreciated. If you have any questions concerning the above, please contact this office.

Sincerely,

Roy Johnson  
Petroleum Geologist
