Oil Conservation Commission
State of New Mexico
P.O. Box 288
Santa Fe, New Mexico 87501

Attention: Carl Ulvog

RE: B 680 S 262135
PRINCIPAL: U. S. FRIGIDICE, INC.
OBLIGEE: STATE OF NEW MEXICO

Dear Mr. Ulvog:

Relative to Order of Oil Conservation Commission relative to proper plugging of Kayser Number one, NE, NE, Section 14-19N-21E, Mora County, New Mexico, at this date it appears that we cannot locate any current owner other than U. S. Frigidice, Inc. of the above-named well site.

Do you have any suggestions as to the capping or plugging of the well to meet the requirements of the State of New Mexico?

Are you acquainted with any contractors who could provide the service.

From your experience, are bids obtained from more than one contractor?

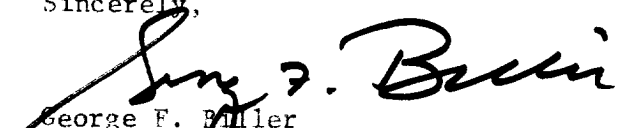

Can you provide me with the name of one or more contractors in the Mora County area who I might contact with a request that they send a proposal for doing the necessary work?

In the Order of the Commission dated the 27th of October, 1976, the reference to a requirement that prior to plugging and abandoning the above-described well, a Commission approved program for said plugging and abandonment should be obtained from the Santa Fe office of the Commission, and "shall notify said Santa Fe office of the day and hour said work is to be commenced, whereupon the Commission may, at its option, witness such work."

Would you kindly offer a suggestion to us as to how this detail may be handled expeditiously and economically.

I look forward to hearing from you, and thank you for your help.

Sincerely,

George F. Miller
Claims Representative
GFB/eva
