Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico.

Attention: Mr. James M. Durrett, Jr.,  
Attorney

Re: Jeoffroy Well No. 1, Section 21,  
Township 23 North, Range 22 East,  
More County, New Mexico.

Dear Mr. Durrett:

Enclosed, please find the completed required forms (Miscellaneous Report and carbon copy, and the Conversion to a Water-well and carbon copy for Jeoffroy Well #1 - along with the original letter and one carbon copy from Mr. Richard K. Wootten, landowner) and, am trusting that said enclosures will meet with your approval.

However, may I call your attention to the Conversion to Water-well forms - where they require the signature of the Operator: I believe that if you will check back in your records - you'll find that one Mr. Roscoe Pursley was the original Operator, performing in our behalf, for said well. However, being that Mr. Pursley is not available at this time - and that since I was present on the location during the whole drilling program of said well - I felt that it would be acceptable for my signature to appear in the required space, in his behalf, assuming that this would meet with your approval.

If, however, there should be any more requirements needed, etc., please inform me of such - and I'll do my utmost to fulfill the same. Otherwise, I'd like to again express my appreciation and thanks for your help and understanding regarding this matter. I'm planning to be in Santa Fe in the coming future - for which, at that time, would enjoy meeting you personally.

Again, will you please inform me when the State approves the Conversion of said well - so that I may in turn notify the landowner of same! Then too, will the Bonding Company be notified of same from your office?

Until then, I remain,

Very truly yours,

  
R. W. Filkey Jr.

RWFJr/jr

\* Also, my appreciation for Mr. Douglas Henriques name!
