Attention: Exploration Manager

Dear Sir:

A recent examination of Oil Conservation Commission files indicated that the plugging report of a Continental Oil Company well had not been approved by this office. Consequently, on June 25, 1974, I inspected the location and found that the well had apparently been properly plugged, marked and abandoned. A copy of the Oil Conservation Commission approval is enclosed for your files.

Yours truly,

CARL ULVOG  
Senior Geologist and  
Oil & Gas Inspector
