Dear Sirs:

Re: Rinehart No. 1 well
SWSW Sec. 29, Twp. 23 N
R. 22 E, Mora County

I shall appreciate the favor greatly if you will permit me to convert the captioned well which has a tremendous amount of water, into a stock well for my ranch which has no deep well.

For me to drill a well of this depth would entail a cost of around \$4400.00 which is the price that wells of this depth are costing and yet a very few of them have water in quantity.

If this will not be contrary to your regulations I shall be grateful for the opportunity of converting this well to the use of my ranch thus adding to the value of my place besides affording me an abundance of water.

Yours very truly,

Mrs Frances Rinehart
