**EOG's STATEMENT OF THE CASE**

In these cases, Applicant seeks pooling orders creating four laydown 320-acre horizontal well spacing units in the Bone Spring and Wolfcamp formations underlying the S/2 of Sections 14 and 15, Township 20 South, Range 29 East, NMPM, Eddy County, New Mexico for the proposed Ted 1514 Fed Com #123H-#124H, #203H-#204H wells. EOG opposes the issuance of pooling

orders for the requested horizontal well spacing units unless the orders include the following payment provision:

Applicant shall not furnish to EOG Resources the estimated well costs for any well for payment under this pooling order any sooner than 60 days before the commencement of the drilling of each well and EOG Resources will have 30 days after receipt of the estimated wells costs to pay its share of the estimated well costs.

This provision is reasonable and necessary to protect EOG from a premature demand for payment of estimated well costs.

Respectfully submitted,

HOLLAND & HART LLP
