I don't think it's too much to ask (REQUIRE) that the very wealthy oil and gas companies capture 98% of methane emissions in NM by 2026. Such emissions have far reaching effects; however, the people in the Four Corners region, especially the poorer populations of indigenous peoples, suffer the brunt of toxicity. This is called environmental INjustice.

### Are you interested in making a public statement at the hearing?

- No, I do not want to sign up to make a public statement
