**BY CERTIFIED MAIL
RETURN RECEIPT REQUESTED**

Michelle Lujan Grisham
Governor of New Mexico
490 Old Santa Fe Trail, Room 400
Santa Fe, NM 87501

Dear Governor Michelle Lujan Grisham:

Enclosed, please find a petition from over 4,500 people urging you to support the application to adopt rules that address the use of toxic perfluoroalkyl and polyfluoroalkyl substances, otherwise known as PFAS, in the drilling, development, and production of oil and natural gas. This petition was signed by people from across New Mexico and the country who are concerned over the local, regional, and even national implications of PFAS contamination by the oil and gas industry. Thank you for your consideration.

Sincerely,

Jeremy Nichols
Climate and Energy Program Director
WildEarth Guardians

July 11, 2023

Petition to:

New Mexico Governor Michelle Lujan Grisham

Re: Ban the use of PFAS by the oil and gas industry

Dear Governor Michelle Lujan Grisham:

The undersigned write to you in support of the application to adopt rules that address the use of toxic perfluoroalkyl and polyfluoroalkyl substances, otherwise known as PFAS, in the drilling, development, and production of oil and natural gas.

As reported, the oil and gas industry is using PFAS when drilling and fracking in New Mexico. The report by Physicians for Social Responsibility, called *Fracking with "Forever Chemicals" in New Mexico*, revealed the use of PFAS in hundreds of oil and gas wells across the state over the last decade or more. Thousands more oil and gas wells have been injected with "trade secrets" that may also include undisclosed PFAS.

The undersigned thank you for your petition to the U.S. Environmental Protection Agency to restrict PFAS use under federal hazardous waste law. However, the oil and gas exploration and production waste is exempt from both federal and state hazardous waste law. Your call for "uniform" regulation of PFAS, which you describe as "an imminent and substantial endangerment to human health and the environment," signals an urgent need for the reform to critical rules governing PFAS in the oil and gas industry in New Mexico. The proposal submitted to the Oil Conservation Commission addresses the very real threat dangerous chemicals like PFAS pose to New Mexico communities and clean water by both prohibiting the use of PFAS in downhole oil and gas operations and enhancing disclosure rules to ensure compliance and transparency around the chemicals used by industry.

The undersigned urge you to support the rulemaking application to ban the use of PFAS in the oil and gas industry and we urge you to direct your agencies to set a hearing as quickly as possible in order to protect people and communities.

Sincerely,
