STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION COMMISSION NEW 20 2018 AM 12:42

APPLICATION OF DELAWARE ENERGY LLC TO REVOKE THE INJECTION AUTHORITY GRANTED UNDER SWD-1680 FOR THE ALPHA SWD NO. 1 WELL OPERATED BY ALPHA SWD OPERATING LLC, EDDY COUNTY, NEW MEXICO

> Case No. 15855 (de novo) Order No. R-14484-A

DELAWARE ENERGY'S RESPONSE TO ALPHA'S MOTION FOR DISMISSAL

Delaware Energy LLC ("Delaware"), files this response to the motion for dismissal filed by Alpha SWD Operating, LLC ("Alpha").

Administrative Order SWD-1680 authorizes Alpha to inject produced water into the Devonian formation in Unit J of Section 10, Township 24 South, Range 28 East. There is no dispute that this administrative order was issued without notice to Delaware and prior to the expiration of the 15-day waiting period required by NMAC 19.15.26.8(C). See Order R-14484-A at p. 3, ¶¶ (11)-(17); Commission Order R-14484-B at p. 2, ¶¶ 7-8. Now, after litigating this matter for over a year and invoking two orders confirming Order SWD-1680 was improperly issued, Alpha seeks to bury these findings by filing a motion contending Delaware lacked "standing" to bring this matter to light. Alpha's motion is not only stale but wrong.

UNDISUTED FACTUAL AND PROCEDURAL BACKGROUND

The already extensive record in this matter reflects the following undisputed facts and sequence of events:

1. On October 24, 2016, Delaware filed an application with the Division for a disposal well in the Devonian formation in Unit K of Section 10 and subsequently was informed by the Division that its prior-filed application was "suspended" following protests by nearby operators. See Attachment 1 (Exhibit 3 from Division hearing).

4

- 2. Alpha was informed prior to filing its competing application that Delaware had recorded Salt Water Disposal Agreements for the subject area, that Delaware had a disposal application filed with the Division for the subject area, and that if Alpha submitted a competing disposal well application to inform Delaware. See Attachment 2 (Tr. 11/7/17) at pp. 41-49. See also Attachments 3,4, and 5 (referenced Division Examiner Hearing Exhibits 10, 11 and 12).
- 3. Alpha never informed Delaware of its subsequently filed, competing disposal application and Delaware only learned of the premature issuance of Administrative Order SWD-1680 when Alpha offered to sell its injection authority to Delaware. Attachment 2 at at p. 35-36.
- 4. The <u>day before</u> Administrative Order SWD-1680 was <u>prematurely issued</u> for Alpha's disposal well, the operators protesting Delaware's prior-filed application informed the Division that they "hereby drop their objection" because Delaware had agreed to revise the "casing program to our satisfaction." *See* Attachment 1.
- 5. While Alpha's subsequently filed application was still subject to the 15-day waiting period required by NMAC 19.15.26.8(C), Delaware had discussions with the Division about the necessary amendments to its prior-filed application to accommodate the well casing changes requested by the formerly protesting parties. See Attachment 2 at pp. 28-29.
- 6. While Alpha's subsequently filed application was still subject to the 15-day waiting period required by NMAC 19.15.26.8(C), the necessary amendments to Delaware's prior filed application were provided to the Division. See Attachment 6 (Division Hearing Exhibit 4).
- 7. At no point after the filing of Delaware's application did the Division suggest to Delaware that its prior-filed application had been removed from a "suspended" status or that it was no longer viable for approval. *See* Attachment 2 at p. 28 (lines 6-19); p. 33 (lines 16-25).

This undisputed factual prompted Delaware to file an Application with the Division to revoke the injection authority improperly granted under Administrative Order SWD-1680. Alpha did not contest Delaware's standing to bring its action and instead proceeded to litigate before the Division Examiners whether Administrative Order SWD-1680 was properly issued. The Division

¹ While Alpha suggests certain notations in the Division's files indicate Delaware's application was "cancelled" or "withdrawn" (see Alpha Ex. A), the representations and actions of the Division reflect otherwise. Moreover, after entertaining Alpha's contention and reviewing its file, the Division issued Order R-14484-A granting Delaware's application to rescind Administrative Order SWD-1680.

eventually entered Division Order R-14484-A finding that its administrative order had been improperly issued. Alpha appealed this matter to the Commission and proceeded to litigate the matter to the point of invoking findings by the Commission confirming Administrative Order SWD-1680 was improperly issued. *See* Commission Order R-14484-B. Now after the Commission has confirmed the findings made by the Division, Alpha has filed a motion challenging Delaware's legal standing to bring this matter to light.

I. Alpha Has Waived Any Argument That Delaware Lacks Standing to Request A Rescission of Order SWD-1680.

Delaware filed its application to revoke Order SWD-1680 on September 12, 2017. Alpha did not move to dismiss the application for lack of standing.

Instead, Alpha proceeded to:

- Unsuccessfully oppose a motion to stay the injection authority (see Order R-14484);
- Respond to a subpoena for information prior to the Division Examiner hearing;
- File a prehearing statement that did not contest Delaware's standing to bring this action (see Attachment 7); and
- Present argument and evidence at the Division Examiner hearing without contesting Delaware's standing (see, e.g., Attachment 2 (Tr. 7/11/17) at pp. 15-17).

Now, after the Commission has confirmed Order SWD-1680 was improperly issued (*see* Order R-14484-B at Findings 7 and 8), Alpha seeks to quash any effort to cure the defect by suggesting Delaware lacked legal standing to file its Application for a Division hearing.

New Mexico courts have held that standing can be waived where the issue was not raised until after the entry of a judgment. See, e.g., Deutsche Bank Nat'l Tr. Co. v. Johnston, 2016-NMSC-013, ¶15, 369 P.3d 1046 (noting that in a foreclosure action standing can be waived if not raised prior to trial). Since Alpha did not contest Delaware's standing to file its Application until after

unsuccessfully litigating the propriety of the issuance of Order SWD-1680, any question about Delaware's standing to bring that Application over a year ago has been waived.

II. Delaware Had Standing to Challenge Whether SWD-1680 Was Properly Issued.

Not only is Alpha's standing argument stale, but it is without merit. Legal standing exists when a plaintiff can show "(1) an injury in fact, (2) a causal relationship between the injury and the challenged conduct, and (3) a likelihood that the injury will be redressed by a favorable decision." *ACLU of N.M. v. City of Albuquerque*, 2008-NMSC-045, at ¶7. Further, "once the plaintiff has alleged that he is among those who are directly injured or imminently threatened with injury, the alleged injury itself need only be slight." *ACLU* at ¶18.

The premature issuance of Order SWD-1680 has caused Delaware more than "slight" harm, as it has prevented the Division from considering Delaware's prior-filed application for a disposal well in Unit J of Section 10. See Attachment 8 (9/19/18 email from the Division). This type of injury easily confers Delaware with standing to seek the relief sought under its application. See DeVarga and Loan Ass'n of Santa Fe v. Campbell, 1975-NMSC-026, ¶16, 535 P.2d 1320 (holding that four savings and loan associations had standing to challenge the approval of a competing branch office after alleging "they will suffer from undue competitive injury if another branch is permitted in Santa Fe because there is not sufficient business and demand to assure and maintain the solvency of existing associations.")

Further, the New Mexico Supreme Court has instructed that any party "materially affected" by an administrative action is entitled to "actual notice." *Uhden v. New Mexico Oil Conservation Commission*, 1991-NMSC-089 at ¶ 2. Here, Delaware was informed by the Division that its prior-filed application was "suspended" pending resolution of the casing concerns raised by offsetting operators, Delaware informed Alpha of its prior-filed application and requested that Alpha notify

it if Alpha filed a competing application, the Division was informed that the concerns raised by the offsetting operators to Delaware's prior-filed application were resolved before the premature issuance of SWD-1680, the Division accepted amendments to Delaware's prior filed application before the 15-day period applicable to Alpha's subsequently filed application expired. Yet, Delaware was never informed of the filing of Alpha's competing application. Further, Order SWD-1680 was issued prior to the expiration of the 15-day time frame for "interested parties" to file objections. See NMAC 19.15.26.8(C). The evidence in the record supporting these facts not only satisfy the "injury in fact standard" for standing, but also demonstrates that Delaware was "materially affected" by the improper issuance of Order SWD-1680.

Since there is no question Delaware has been harmed by the premature issuance of Order SWD-1680, and that this harm can be cured by the relief requested in Delaware's application, Delaware had legal standing to file its Application with the Division. Alpha's tardy and legally deficient motion for dismissal "based on a lack of standing" must be denied.

Respectfully Submitted,

Mr. Stein

Casing programs is inadequate. Therefore, you are being notified that if Delaware Energy, LLC wishes for this application to be considered, it must either go to hearing or may be reviewed administratively if the protest is withdrawn as a result of a negotiated resolution with this party.

Indication with the party.

Indication with the application within the next 30 days. If the protest remains after 30 days, OCD will initiate the process for the application to be reviewed at hearing. Please contact me with any questions regarding this matter. PRG

Page 6 Page 8 1 (9:00 a.m.) 1 OPENING STATEMENT 2 EXAMINER GOETZE: Good morning, gentlemen. 2 MR. FELDEWERT: Mr. Examiner, as you 3 3 This is a special Examiner Hearing for Tuesday, November gathered from our pre-hearing statement in the 4 7, 2017, Porter Hall, Santa Fe. This is Docket Number application, we are seeking the revocation of Order 5 5 40-17. We're here to hear only one case. It is Case SWD-1680, which was issued by the Division on June 28th, 6 6 Number 15855, application of Delaware Energy, LLC to 2017. And for purposes of my opening statement, if you 7 revoke the injection authority granted under SWD-1680 turn to what we've marked as Exhibit Number 1 in our 8 for the Alpha SWD No. 1 well operated by Alpha SWD 8 notebook or in our exhibit package, you'll see I've put 9 Operating, LLC, Eddy County, New Mexico. 9 together a timeline of events. And probably what would 10 Call for appearances. 10 be helpful, you may want to circle June 12th, 2017. 11 MR. FELDEWERT: May it please the Examiner, 11 which is the sixth entry down, because that was the date 12 Michael Feldewert and Adam Rankin for the Applicant 12 when Alpha filed its application for a Devonian disposal 13 Delaware Energy, LLC. I've been able to trim our 13 well, for its SWD No. 1, which resulted in Order 14 14 presentation down here today, so I only have one SWD-1680. 15 15 witness. I do have an opening statement. Mr. Examiner, the issuance of this order 16 EXAMINER GOETZE: Very good. 16 suffers from both notice and procedural defects. And if 17 Mr. Larson? 17 you take a look at the timeline, really the first half 18 MR. LARSON: Good morning, Mr. Examiner. 18 of that timeline above that June 12th filing date, it 19 Gary Larson, with the Santa Fe office of Hinkle Shanor, 19 addresses events that reflect and bear upon this notice 20 for Alpha SWD Operating, LLC. I have three witnesses. 20 defect because it is, first off, undisputed that the 21 MR. RANKIN: Mr. Examiner, I'll also make 21 order was issued without any notice to Delaware Energy, 22 an appearance for Matador Production Company. I'll have 22 and there was a failure of notice to Delaware Energy 23 a short letter to present to the Division and to Alpha 23 even though it had a pre-existing application on file 24 24 with recommendations on the -- to change the location with the Division for an injection well right next door. 25 25 and some of the --If you take -- if you look at Tab 16 -- so Page 7 Page 9 1 EXAMINER GOETZE: Some other suggestions? 1 keep your finger on the timeline and then quickly flip 2 2 MR. RANKIN: Some other suggestions. over to Tab 16, we've provided you a nice aerial 3 3 EXAMINER GOETZE: Okay. Very good. depiction of the acreage we're talking about here. And 4 MR. RANKIN: So I'd like to present that as 4 you'll see that the thing in yellow was that the Alpha 5 5 well. Thank you. SWD was for subject of the order, and right next door up 6 EXAMINER GOETZE: And you have a time 6 there in Unit K is the Ruiz No. 1, which is the subject 7 7 constraint? of Delaware's pre-existing October 2016 application. 8 MR. RANKIN: I can do that first, and if I 8 And while that application was suspended 9 9 might just approach to distribute the recommendations. because there was a protest, it was still on file with 10 EXAMINER GOETZE: Well, let's do this 10 the Division while the parties worked through the 11 first. Let's go ahead and have all the witnesses who 11 objections. And as we will show you here today, that's 12

12 are going to appear stand, identify themselves and be 13 sworn in by the court reporter, please. 14 MR. KNEWITZ: Kurtis Knewitz, with Alpha 15 SWD Operating. 16 MR. PICKARD: Jason Pickard, Alpha SWD 17 Operating. 18 MR. WEYAND: Christopher Weyand, Lonquist & 19 20 MR. McCURDY: Michael McCurdy, Delaware 21 Energy. 22 (Mr. Knewitz, Mr. Pickard, Mr. Weyand and Mr. McCurdy sworn.) 23

EXAMINER GOETZE: All right. Let's start

24

25

with opening statements.

exactly what Delaware did. They worked through the objections, and there was notice provided to the Division that those objections had been withdrawn. Yet despite the fact that there was an application on file by Delaware, nobody gave notice to Delaware about this filing of a competing application for a disposal well right next door in the same zone.

The second point that the timeline demonstrates to bear on is this absence of notice, is that Delaware is a lessee of record in Section 10 under a recorded Memorandum of a Salt Water Disposal Agreement, if you look at Exhibit Number 11. This is a Memorandum of Salt Water Disposal Agreement. It was of record as of February 6, 2017, long before Alpha filed

its application, and it reflects that Delaware is a lessee of acreage for disposal purposes in Section 10.

24

25

Now, I go to the Division's rule, which I I've put in here as Tab 15. So Mr. Brooks can look at his notebook or, Mr. Examiner, you can look at Tab 15. And when you take a look at Tab 15, which is -- I'll call it Rule 26 to make it easy. There is a Section B, "Method of making application." So Rule 26B(2). And what it says is that the application -- the applicant shall furnish, by registered mail, a copy of its application and give notice to each -- to the owner of the surface on which the injection well or disposal well is to be located. And then it goes on to say -- and I'm halfway through paragraph two -- "and to each leasehold operator or other affected person within any tract wholly or partially contained within one-half mile of the well,"

Now, if I hold a recorded Memorandum of Salt Water Agreement right next door to where you're proposing to put a disposal well, it seems to me that I am an affected person. Yet despite this recorded instrument and this knowledge, Delaware was never provided notice by anybody of this competing disposal application.

The third point borne out by the timeline

about the filing of their application.

So that's the notice defect here.

This application also suffers from a procedural defect, and that is our timeline -- the second half of our timeline, because what you'll see is that Alpha's order was issued prematurely, before the expiration of that 15-day review period. And we have to start with Exhibit 14.

Exhibit 14 is Alpha's application that we have pulled down from the Division's file. Okay? The first thing you're going to notice, up in the left-hand corner, is that it too was suspended. Now, if I go to page 25, you'll see why. And these pages are, fortunately, numbered. So I go to page 25 of Exhibit 14, and there is an email from the Division to Alpha who just filed their application. It's on the same day that they filed it. Is says, "Your application that was received on June 17 will not be placed into the administrative review process. The following information is required." And then it includes a list of information as to what's missing, which is why it's not in the review process.

What happens then is, if you take a look at page -- or the timeline or you can look at this exhibit -- page 28 is probably the easiest -- that

Page 11

is that Delaware told Alpha, provided information to Alpha about its acreage subject to disposal agreements

3 before Alpha filed its application. And that's

reflected in Exhibit Number 10. Mr. Stein, who is with

Delaware, as reflected in Exhibit Number 10, sent to

Mr. Knewitz -- I hope I said right --

MR. KNEWITZ: (Indicating.)

MR. FELDEWERT: - way back in March of 2017 a list of his disposal agreements, and that's provided as an attachment to this email of Exhibit 10, a separate page. Now, we have - because this is a public record, we've blotted out the big, long list that he sent. What we left intact was the notice that was provided in that list that Delaware had a disposal agreement with Mr. Raymond - with Mr. Reyes Ruiz in Section 10. So Alpha knew about it. They were provided with this list. It was recorded, yet Alpha chose not to provide any notice to Delaware when it files its competing disposal application right next door.

Finally, Mr. McCurdy, our witness here, is going to testify on this notice issue that he told Alpha three different times, three times, to provide notice to them if Alpha chose to move forward with the filing of a disposal well in its unit acreage in Section 10, and Alpha conveniently decided not to tell Delaware anything

Page 13

1 information wasn't provided until June 19. That's also 2 reflected on page -- the last page, page 30. The

3 missing information was not provided until June 19th, an

important date. Okay? Because when I take these facts

5 and I look at the Division's rule -- I go again to

6 Exhibit 15, and I go to the next page of their Division

7 rule and that would be Rule 26C(2) -- it very clearly

8 says, "The Division shall not approve an application for

g administrative approval until 15 days following the 10

Division's receipt of Form C-108 complete with all 11

attachments." It has to be administratively complete

before that 15-day period even starts to run.

I look at my timeline. I look at June 19th. That's when Alpha submitted the additional information necessary to deem it complete. Fifteen days after that -- you can all go look on your calendar; I did -- is July 4th. Okay? Fifteen days after July 19th is July 4th. And it's important to see what happened in this 15-day period, because, first off, as we know, the Division order was issued only nine days after June 19th, well before the expiration of that 15-day period.

The second thing that happened, during that -- within that 15-day period is that the Division received notice that Delaware -- that the objections to Delaware's application had been rescinded. That's

1 .-

2

5

6

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

1

8

- 1 Exhibit Number 3. That notice was provided to the
- 2 Division on June 27th, within that 15-day review period.
- 3 The second thing - and, therefore, it was no longer
- 4 suspended. The second thing that happened during that
- 5 15-day period is that there was discussion between the
- 6 Division and Delaware about how to move forward,
- 7 discussions about what additional information, if any,
- 8 needed to be provided to the October 2016 application.
- 9 And what they were informed is reflected on Exhibit
- 10 Number 4, which is what Mike McCurdy sent on behalf of
- 11 Delaware on July 2nd, again within that 15-day period,
- 12 And they provided amendments to the October 2016
- 13 application. That application was still viable. It was
- 14 still pending, and all they had to do was provide some
- 15 amendments to that. All of that occurred before the

16 expiration of that 15-day period. 17

18

19

21

1

2

3

4

5

6

7

8

9

10

11

12

13

15

25

Now, If the Division had waited that 15-day period, as they were required to under the rule, perhaps it would have realized that Alpha's application was a

20 direct offset to Delaware's application and that it was

a direct offset competing disposal application within

800 feet of the pre-existing Delaware application. And 22

23 perhaps it would have notified Alpha and Delaware that 24 there are competing disposal applications on file in the

25 same area, within 800 feet of each, in the same zone, Operating submitted its C-108 on June 12 of this year.

Alpha's position is that Delaware's October 2016

3 submission had been canceled, and we will present 4 Division records that support its position.

The second issue is whether Alpha had knowledge of Delaware's October 2016 submission, and even if it did, it was required to notify Delaware of

7 8 Alpha's C-108 submitted on June 12 of 2017.

> Alpha's position on the factual issue is that it had no knowledge of Delaware's October 2016 submission, and its position on the legal issue, which involves the application of Division's notice rules, is that the rules did not require it to provide notice to Delaware.

> The third issue is whether the Division violated its rules by, one, not requiring Alpha to provide notice to Delaware of Alpha's June 12th, 2008 [sic] C-108 application or self-provide notice to Delaware; and, two, by issuing Administrative Order SWD-1680 16 days after it received Alpha's C-108 violated the Division's rules. These are legal issues which lead to the conclusion that the Division fully complied with its rules in granting the injection well authority to Alpha.

> > Delaware's made assertions in its

Page 15

and they have either told the parties to work it out or set the matter for hearing.

So that's why we're here today, because that's what the Division must do now to cure this notice defect, to cure the substantial prejudice that has occurred to Delaware here to avoid an infringement of Delaware's due-process rights and to address and cure these procedural defects associated with the issuance of its order.

So that's why we're asking that this order be rescinded so that the Division can then look at these competing disposal applications and properly consider how to move forward.

14 Any questions?

EXAMINER GOETZE: Is that it?

16 MR. FELDEWERT: That's it, unless you've

17 got any questions.

18 EXAMINER GOETZE: No. I'm sure there will 19 be an opportunity for that.

20 Mr. Larson, we'll let you go next.

21 OPENING STATEMENT

22 MR, LARSON: Mr. Examiner, this case

23 essentially presents three issues. The first is whether

24 the C-108 that Delaware submitted in October of 2016 had

been canceled or remained pending when Alpha SWD

Page 17

- application that Alpha did not know about -- did know --
- 2 I'm sorry - about Delaware's October 2016 C-108, that
- 3 Alpha offered to sell Administrative Order SWD-1680 to 4 Delaware, that Alpha's intent all along was to flip the
- 5 order, and Alpha protested Delaware's July 2017 C-108 in
- 6 retaliation. And while these are tangential issues,
- 7 Alpha is constrained [sic] to present testimony on those
 - issues to set the record straight.

9 Those tangential issues aside, Alpha 10 submits that its focus should remain on the three 11 pivotal issues raised by Delaware's application and 12 further submits that Delaware is unable to sustain the 13 burden of establishing that Alpha's injection authority

14 should be revoked. 15 EXAMINER GOETZE: Very good.

16 And then Matador?

17 MR. RANKIN: Mr. Examiner, thank you. I

18 have no opening statement.

19 I would like to present to the Division and 20 the parties Matador's recommendations for both location 21 and the completion of Alpha's proposed well, should it

22 be approved. So I have the statement.

23 EXAMINER GOETZE: Is that the statement on

24 behalf of Matador?

MR. RANKIN: It is. It is.

FELDEWERT: Exhibit Number 4.

	Page 30		Page 32
1	Q. (BY MR. FELDEWERT) Okay. And if I go through	1	Agreement, on Exhibit Number 11, that was with Reyes
2	this exhibit and I get to the second to the last	2	Ruiz –
3	to the last page, does it provide a revised wellbore	3	A. Reyes Ruiz.
4	diagram?	4	Q correct?
5	A. Yes, it does.	5	A. Yes, sir.
6	Q. With the casing weights specified?	6	Q. And at the time you filed your October 2016
7	A. Yes, sir.	7	application, he was the surface owner?
8	Q. Okay. That was the result of your discussions	8	A. That's correct.
9	with the protesting parties?	9	Q. And then while you were in discussions with the
10	A. One of them, yes, sir.	10	objecting parties, he passed away?
11	Q. Okay. And the second-to-the-last page, does	11	A. That's correct.
12	this actually provide the Division with a	12	Q. And it went to his son, I guess?
13	surveyed certified C-102 plat?	13	A. That's correct.
14	A. It does.	14	Q. And that's Roland?
15	Q. Showing the location of the well?	15	A. Yes.
16	A. It does.	16	Q. And did they indicate did the Division
17	Q. And based on discussions and a resolution with	17	indicate that that was the only additional notice that
18	Matador?	18	needed to be provided?
19	A. That is correct.	19	A. That's it.
20	Q. Okay. It did not provide, for example,	20	Q. And did they indicate that the notice that had
21	Mr. McCurdy, water samples, right?	21	been provided with the October 2016 application was
22	A. Could you repeat the question?	22	sufficient to move forward?
23	Q. This Exhibit Number 4 did not provide any water	23	A. They did.
24	samples to the Division?	24	Q. If I turn to what's been marked as Exhibit
25	A. It did not.	25	Number 5, is this the additional notice to Mr. Roland
	Page 31		
	_		Page 33
1	Q. Is that because they told you that the previous	1	Ruiz that the Division requested to update and amend
2	Q. Is that because they told you that the previous water samples were sufficient?	2	Ruiz that the Division requested to update and amend your application?
2	Q. Is that because they told you that the previous water samples were sufficient? A. That's correct.	2	Ruiz that the Division requested to update and amend your application? A. It is.
2 3 4	 Q. Is that because they told you that the previous water samples were sufficient? A. That's correct. Q. Did they also tell you that the previous 	2 3 4	Ruiz that the Division requested to update and amend your application? A. It is. Q. And if I turn to what's been marked as Exhibit
2 3 4 5	 Q. Is that because they told you that the previous water samples were sufficient? A. That's correct. Q. And that you just needed to provide some amendments to the application, and it would move forward? A. That's correct.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Q. Is that because they told you that the previous water samples were sufficient? A. That's correct. Q. Did they also tell you that the previous geologic write-up submitted in October was still on file and sufficient? A. That's correct. Q. And did they indicate that you needed to provide any additional freshwater data? A. No, sir. Q. Did they indicate that your area of review that was provided in October of 2016 was sufficient? A. They did, with the exception of Roland. Q. You're talking about Mr. Ruiz? A. Mr. Ruiz. Q. Okay. So let's talk about that. What did the Division say with respect to the notice to the surface owner, Mr. Ruiz? A. He said that I needed to make sure, since Mr. Ruiz was — Roland's — Roland's the heir to Reyes Ruiz, who had passed away during this timeline. He said to just go ahead and provide notice to Roland who is the new leasehold. Q. Okay. All right. So we saw — for example, if	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Ruiz that the Division requested to update and amend your application? A. It is. Q. And if I turn to what's been marked as Exhibit Number 6, is this the submission by you to the Division of another copy of the Affidavit of Publication that was provided with the October 2016 application? A. It is. Q. And, in fact, if I look at the second page, it indicates that the Affidavit of Publication is dated October 27th, 2016? A. That's correct. Q. And that's what the Division asked you to submit just so they had another copy in their files? A. That's right. Q. Did you understand, Mr. McCurdy, from your conversations with the Division that the October — October 2016 application was still viable and active? A. I did. Q. And that you just needed to provide some amendments to the application, and it would move forward? A. That's correct. Q. At no point did they indicate that it had been

l	Page 34		Page 36
1	A. Never to us.	1	A. That's right.
2	Q. Okay. Let's go back to the timeline, Exhibit	2	Q. Okay. Was there another aspect of that
3	Number 1. When did the company become aware that Alpha	3	conversation where they inquired about your willingness
4	had filed a competing disposal permit right next door in	4	to purchase their permit?
5	Unit J?	5	A. Yes, during that discussion.
6	A. The day I was out surveying or I had met	6	Q. What did they say?
7	surveyors out in New Mexico to do an official survey on	7	A. They said that, you know, it would probably be
8	the Ruiz SWD.	8	easier if we went ahead - since we can't come to an
9	Q. Okay. So that was on - if I look at the	9	agreement on a, you know, potential partnership at the
10	timeline, that was June 29th?	10	time, they said it would probably be better if, you
11	A. Yes, sir.	11	know, we go ahead and step back and you-all go ahead and
12	Q. That's when Alpha informs you of their	12	buy our permit. And they offered - they said for
13	SWD-1680?	13	\$500,000.
14	A. That's correct.	14	Q. They would sell their permit to you for
15	Q. So you didn't get any notice of their	15	\$500,000?
16	application until the Division had already issued an	16	A. On that conversation, yes.
17	order?	17	Q. What did they say would happen if you didn't
18	A. That's right.	18	accept their offer?
19	Q. Okay. Now, you mentioned that you were out	19	A. They said they had plenty of other buyers lined
20	staking the location of the Ruiz SWD. Was that pursuant	20	up and were talking with other people, and, you know,
21	to your agreement with Matador?	21	they were planning on moving forward.
22	A. That's correct.	22	Q. Moving forward to sell it?
23	Q. Go out and survey the location?	23	A. Yes.
24	A. That's right.	24	Q. Okay. Now, you mention that this whole
25	Q. Now, did Alpha call you?	25	application
	Page 35		Page 37
1	A. They did that day.	1	A. Move forward to sell or operate. There were
2	Q. Okay. And who called you?	2	two options there. It wasn't guaranteed one or the
3	A. Kurt Knewitz and Jason Pickard.	3	other.
4	Q. Mr. Knewitz?	4	Q. Okay. And you mentioned that there were prior
5	A. Knewitz. Sorry.	5	conversations that had occurred between the company and
6	Q. And when they called you on June 29th, what was	6	Mr. Knewitz before this disclosure that they had an SWD
7	the nature of that discussion?	7	permit right next door?
8	A. They were a little - little upset because we	8	A. That's correct.
9	were staking a well over in that location.	9	Q. Okay. Did you review the company records
10	Q. Did they tell you why they were upset that you	10	associated with those discussions?
11	were proceeding with your October 2016 application?	11	A. I have.
12	A. Yes.	12	Q. And who did they take place - who was involved
13	Q. Why were they upset?	13	in those discussions?
14	A. They were upset because it was directly	14	A. Preston Stein and Kurt Knewitz.
15	offsetting their approved SWD order by a couple hundred	15	Q. Mr. Stein was the one who had filed the 2016
16	feet.	16	application?
17	Q. Were you surprised when they told you about	17	A. That's correct.
18	their existing SWD order?	18	Q. If I turn to what's been marked as Delaware
19	A. I was.	19	Exhibit Number 7, does this company - is this one of
20	Q. And why were you surprised?	20	the earlier emails reflecting when those discussions
21	A. Because from previous discussions, we had been	21	took place?
	in discussion with them on potentially working together	22	A. It is.
22			
22 23	on a project, and I was just not aware that they had	23	Q. And this is dated February 21st, 2017?
22	on a project, and I was just not aware that they had filed this permit. Q. Much less got an order?	23 24 25	Q. And this is dated February 21st, 2017? A. Yes. Q. This after well after you filed your

	Page 38	Page	4 0
1	application and long before they filed theirs?	1 O. And does it indicate that Mr. Knewitz was	
2	A. That's correct.	2 acquiring about the length of the Division's disposal	
3	Q. And does it if I look on here, it indicates	3 permits?	
4	that Mr. Knewitz had an investor willing to put up funds	4 A. He is.	
5	to complete a disposal and was inquiring whether your	5 Q. And inquiring about what happens if they ar	e
6	company had any permits that would be interested in	6 not developed?	
7	having an investor?	7 A. Yes.	
8	A. That's correct.	8 Q. And inquiring, in particular, about how	
9	Q. Okay. And then it reflects that Mr. Knewitz is	9 difficult it is to get an extension of those permits?	
10	with some entity called BuySWD.com. Do you see that?	10 A. That's correct.	
11	A. Yes.	11 Q. And he was asking all these questions of	
12	Q. How did Mr. Knewitz tout himself? What is	12 Mr. Stein?	
13	BuySWD.com?	13 A. Yes.	
14	A. As a broker who connects saltwater disposals	14 Q. Did it appear to you that Mr. Knewitz had no	ver
15	with either investors or with potentially other buyers,	15 applied for an SWD permit or operated a disposal w	
16	maybe operators looking for saltwater disposals in those	16 New Mexico?	UI III
17	areas.	17 A. Say again.	
18	O. So he's a broker?	18 Q. Did it appear to you from the correspondence	
19	A. Right.	that Mr. Knewitz had never applied for an SWD per	
20	Q. Okay. And if I look at Exhibit Number 8, is	20 New Mexico or operated a disposal well in New Mex	
21	this a printout of Mr. Knewitz' company at the time, a	21 A. That's correct.	
22	printout from their Web site, BuySWD.com?	22 Q. Okay. And at some point in time during thes	
23	A. It is.	23 conversations and dealing with Mr. Knewitz as a br

Did you then have a subsequent meeting with Mr. Knewitz in Dallas?

	Page 50	T	Page 52
1	Q. In the same zone?	1	O. On Exhibit 14?
2	A. Yes.	2	A. Hold on. Yeah, I do. Okay.
3	Q. And never even tell you?	3	Q that's the email from the Division
4	A. Right.	4	indicating to Alpha that their application will not be
5	Q. Okay. Let's go back to Exhibit Number 1.	5	placed in the administrative review process because they
6	Let's start at the top. Okay? We have here an	6	were missing information?
7	application that was filed in October. You've seen that	7	A. That's correct.
8	exhibit, correct?	8	Q. Okay. Then we have the next entry on June
9	A. Right.	9	19th, Alpha submitting the additional information to the
10	Q. Okay. We have the fact that you were notified	10	Division. And that, again, is reflected on Exhibit 14
11	that your application had been protested, and the	11	towards the end, correct, Mr. McCurdy?
12	Division told you that it would be held but suspended?	12	A. That's correct.
13	A. That's right.	13	Q. All right. The next entry, then, is June 27th,
14	Q. We have that exhibit, right?	14	2017. The Division is notified that the protest to your
15	A. (Indicating.)	15	October 2016 application had been withdrawn. That's
16	Q. Okay. You then have the next entry is you	16	what we saw in Exhibit Number 3?
17	record notice of the saltwater disposal agreement in	17	A. That's correct.
18	Section 10, and that is that first recording, which is	18	Q. And then the Division records will reflect that
19	Exhibit Number	19	there was an order issued on June 28th, 2017 approving
20	MR. FELDEWERT: Mr. Examiner, you may want	20 21	of Alpha's application, right, notice to you?
21	to write it down.	22	A. That's correct. Right.
22	Q. (BY MR. FELDEWERT) Exhibit Number 11, right?	23	Q. Now, we have an entry here, June 29th, 2017.
23	A. That's right.	24	Alpha informs Delaware of the SWD-1680 and inquires whether Delaware desires to purchase the permit. Does
24	Q. And then you have not only this recording, but	25	that reflect your testimony where you discuss the fact
25	then you have on March 4th, Delaware informs	23	that renect your testimony where you discuss the fact

This reflects your discussion just now, right, of your telephone conversation with Mr. Knewitz, your meeting with him in Dallas and your request that they provide notice if they move forward? A. Right. Q. Then we have the filing of their application of June 12th? A. Yes. Q. Again, with no notice to you? A. That's correct. Q. And we have the fact that the Division informed Alpha that it was incomplete and would not be placed in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that they called you when you were staking the Ruiz No. 1? A. That's correct. Q. And that that's when they told you that they had received the permit from the Division? A. That's correct. Q. And that's when they said, Do you guys want to buy it; we'll sell it to you for half a million? A. Yup. Q. Then on June — July 2nd, we have an entry here that the company submitted revisions to the October 2016 application to incorporate the casing design and location. Do you see that? A. I do. Q. That's reflected in Exhibit Number 4; is that right? A. That's correct. Q. And this was after you had had discussions with the Division about your pending October 2016
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Mr. Knewitz of the existing saltwater disposal agreement in Section 10. That would be your — the email to him providing the location of your disposal sites, correct? A. That's correct. Q. And that was your Exhibit Number 10? A. Yes. Q. Okay. Then we have an entry there in May of 2017. This reflects your discussion just now, right, of your telephone conversation with Mr. Knewitz, your meeting with him in Dallas and your request that they provide notice if they move forward? A. Right. Q. Then we have the filing of their application of June 12th? A. Yes. Q. Again, with no notice to you? A. That's correct. Q. And we have the fact that the Division informed Alpha that it was incomplete and would not be placed in the administrative review process?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that they called you when you were staking the Ruiz No. 1? Was the company prejudiced by the absence of notice of the filing of Alpha's competing disposal well? A. Prejudiced meaning? Q. You didn't have an opportunity to come before the Division and explain why it would be improper to have a competing disposal well right next door. A. That's correct. Q. And as a result of the absence of notice and these procedural irregularities associated with the issuance of that Alpha permit, does the company request that the Division rescind SWD-1680? A. We do. Q. Would this relief then allow the Division to properly consider the competing disposal applications for a disposal well in the Devonian in this area? A. That's correct. Q. Were Delaware Exhibits 1 through 16 compiled by	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. FELDEWERT: You know, there's — we've been working with Mr. Larson, Mr. Examiner. In fact, we got an additional agreement just yesterday, an offer that we consider responsive to the subpoena, and I haven't had a chance to visit with Mr. Larson yet. But one of the attachments — what we got yesterday afternoon was a purchase and sale agreement — well, hold on. I don't want to misrepresent what we got. Yeah, a purchase and sale agreement between Alpha and Gateway Permian, which is our Exhibit Number 20. I glanced through this last night, and there are certain attachments and exhibits to that agreement that were not produced with the agreement, one of which was an apparent lease between an Alpha entity and Gateway Permian, which is ostensibly going to purchase the permit from Alpha. The lease was not attached to the — to the agreement that was sent to us. I'm not sure why because I think it's responsive, because it's an agreement that involves the purchase and sale agreement
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Alpha's competing disposal well, do you feel that the company was prejudiced of that absence of notice? A. Could you repeat the question? Q. Was the company prejudiced by the absence of notice of the filing of Alpha's competing disposal well? A. Prejudiced meaning? Q. Kurt,

Meant to cc you on this. I've put together a ROUGH acreage schedule of our locked-up Acreage in NM. Wanted to pass this onto you as well. See attached.

Best Regards,

Preston M. Stein Vice President Delaware Energy, LLC 3001 W. Loop 250 N Suite C-105-318 Midland, TX 79705 (214) 558-1371

MEMORANDUM OF SALT WATER DISPOSAL AGREEMENT

THE STATE OF NEW MEXICO

KNOW ALL MEN BY THESE PRESENTS:

COUNTY OF EDDY

8

This Memorandum of Salt Water Disposal Agreement is made and entered into as of the day of following 2016, between Reyes Ruiz, whose address is 302 West Clayton Ave., Loving, NM 88260 ("Lessor"), and DELAWARE ENERGY, LLC, whose address is 3001 W. Loop 250 North, Suite C-105-318, Midland, Texas 79705 ("Lessee"):

WITNESSETH:

Lessor and Lessee have this day entered into a Salt Water Disposal Agreement, dated effective as of the date first-written above, covering the following described lands in Eddy County, New Mexico, towit:

Section 10, Township 24 South, Range 28 East

Said Sait Water Disposal Agreement, subject to certain termination provisions, contains a primary term of five (5) years and shall remain in force as long thereafter, subject to the further conditions and limitations stated in the terms and provisions of said Salt Water Disposal Agreement.

Lessor and Lessee are executing this Memorandum of Salt Water Disposal Agreement for the purpose of placing the same of record in Eddy County, New Mexico, and in order to constitute constructive notice of said Salt Water Disposal Agreement in lieu of recording of said Salt Water Disposal Agreement in its entirety. A full and complete copy of said Salt Water Disposal Agreement will be maintained in the office of both Lessor and Lessee at the address shown above.

IN WITNESS WHEREOF, this Memorandum of Salt Water Disposal Agreement is executed as of the day, month and year first hereinabove written.

Subject: FW: Protest of Application to Inject- Ruiz SWD Well No. 1

Michael/Karen/Karen,

This permit was protested last October 2016 due to Guardian/RSC's (Both Randy Cate, see Randy's email signature below) concerns with our casing design. Guardian/RSC protested due to Delaware Energy not specifying the casing weights we planned to use on our new drill design (emails attached). As you can see we have updated our casing design and are requesting approval of our Ruiz SWD #1 permit. Attached in this email are the following items as requested (copies of these documents will be sent on 7/3 via certified mail to Karen Collins, Michael McMillan and Karen Sharp).

Attached are the following documents for the Ruiz SWD #1 (as requested):

- Administrative Application Checklist
- C-108 Application for Authority to Inject
- C-108 Additional Questions Answered
- C-102
- Wellbore Diagram of Ruiz SWD #1 As Proposed (with casing weights specified)
- Email from Guardian/RSC release of protest
- Email correspondence over casing concerns and needed changes

Best Regards,

Mike McCurdy Operations Engineer Delaware Energy, LLC 3001 W. Loop 250 N. Midland, TX 79705 432-312-5251

STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT

Oil Conservation Division 1220 South St. Francis Dr. Sunta Fe, New Mexico 87505

FORM C-108 Revised June 10, 2003

APPLICATION FOR AUTHORIZATION TO INJECT
PURPOSE Secondary Recovery Pressure Maintenance XXX Dispusal Storage Application qualifies for administrative approval? XXX Yes No
TI OPERATOR: Delaware Focces LLC
ADDRESS: 3001 W. Loop 250 N. Suite C-105-318, Midland TX 79705
CONTACT PARTY. Mike McCurdy PHONE 432-312-5251
III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.
IV Is this an expansion of an existing project? Yes xxx No. If yes, give the Division order number authorizing the project:
V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail
VII. Attach data on the proposed operation, including.
 Proposed average and maximum daily rate and volume of fluids to be miceted. Whether the system is open or closed. Proposed average and maximum injection pressure: Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than remijected produced water, and. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, shalles, nearby wells, etc.)
*VIII.— Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to buttom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.
X. Describe the proposed stimulation program if any.
X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be esubmitted)
*XI Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were linken.
XII Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking scales.

XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.

XIV Certification: I hereby certify that the information submitted with this application is true and concert to the best of my knowledge and belief.

E-MAIL ADDRESS:	Mmccordy a delaw greeners vilo.com	•	
* If the information re	quired under Sections VI, VIII, X, and XI above	to has been previously submitted, it nee	d not be resubmitted
Please show the date a	ad circumstances of the earlier submittal:		

DISTRIBUTION. Original and one copy to Santa Fe with one copy to the appropriate District Office

Side 2

III WELL DATA

- A: The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:
- (1) Lease name, Well No.: Location by Section, Township and Range; and footage location within the section
 - (2) Each easing string used with its size, setting depth, sacks of content used, hole size, top of coment, and how such top was determined
- (3) A description of the tubing to be used including its size, lining material, and setting depth.
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used

Division District Offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

- B The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics acced not be repeated.
- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well
 - (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to scal off such perforations
- (5) Give the depth to and the name of the next higher and next lower oil or gas zone in the area of the well, if any.

XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

(1) The name, address, phone number, and contact party for the applicant. (2) The intended purpose of the injection well, with the exact location of single wells or the Section. Township, and Range location of multiple wells. (3) The formation name and depth with expected maximum injection rates and pressures; and, (4) A notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, 1220 South Sci Francis Dr., Santa Fo. New Mexico 87505, within 15 days NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them. BELO	DW: None		
AROV	VF: Bone Spring 6 0501-9 2471 Waltenma 9	947°-11 400° Atoka 11 400°-14	000' Managara 11 000' 10 000'

VII.

1. Proposed average and maximum daily rate and volume of fluids to be injected;
Average 20,000 BWPD, Max 25,000 BWPD

2. Whether the system is open or closed;

Open System, Commercial SWD

3. Proposed average and maximum injection pressure;

Average 1,000-2,000 PSI, Max 2,730 PSI

4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,

Bone Spring, Delaware, and Wolfcamp produced water. No known incompatibility exists with these produced water types and the Devonian. Devonian formation is used as a disposal interval in offset Townships for Wolfcamp, Bone Springs, and Delaware produced water. See attached water analysis from Bone Spring, Wolfcamp, and Delaware produced water.

5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).

Disposal interval is barren and does not produce. No Devonian receiving formation water samples in the surrounding area.

*VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed <u>injection</u> zone as well as any such sources known to be immediately underlying the injection interval.

The proposed disposal interval is located in the Devonian formations 13,650'-14,650'. Devonian is an impermeable Shale at the very top (13,550', Woodford Shale) followed by permeable lime and dolomite. There are no fresh water zones underlying the proposed injection zone. Usable water depth is from surface to +/-300', the water source is older alluvium (Quaternary). All of the fresh water wells in the area have an average depth to water of 50' – 200' (Based on State Engineers Office).

IX. Describe the proposed stimulation program, if any.

20,000 gallons 15% HCL acid job with packer

X. Attach appropriate logging and test data on the well

Logs will be filed following drilling operations, Cased hole CBL, Gamma, CCL. Open Hole Neutron, Resistivity, Gamma.

XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.

Attached are water samples from section 10 and 11 of Township 24 South, Range 28 East.

XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.

Delaware Energy, L.L.C. has reviewed and examined available geologic and engineering data in the area of interest for the Ruiz SWD No 1 and have found no evidence of faults or other hydrologic connections between the Devonian disposal zone and the underground sources of drinking water. Furthermore, there exist many impermeable intervals between the injection interval and the fresh ground water in the 13,650' feet of lithology between the top of the Devonian and the base of the ground water.

Mike McCurdy	Operations Engineer	7/02/2017

III. WELL DATA

- (1) Lease name; Well No.; Location by Section, Township and Range; and footage location within the section.

 Ruiz SWD No 1, Sec. 10-T24S-R28E, 2565' FSL & 2,360' FWL, UL K, Eddy County, New Mexico
- (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.

Casing Size	Setting Depth	Sacks of Cement	Hole Size	Top of Cement	Determined
20"	400'	1,400	24"	Surface	CIRC
13-3/8"	2,600'	2,000	17-1/2"	Surface	CIRC
9-5/8"	9,500'	2,200	12-1/4"	Surface	CIRC
7"	13,650'	2,200	8-1/2"	Surface	CIRC

- (3) A description of the tubing to be used including its size, lining material, and setting depth.
 - 4-1/2" OD, Internally Plastic Coated Tubing set 50 to 100ft above open hole
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Weatherford Arrow set 1X injection packer, nickel plated with on/off tool

- B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.
- (1) The name of the injection formation and, if applicable, the field or pool name.

Devonian Formation

Pool Name: SWD (Devonian)

(2) The injection interval and whether it is perforated or open-hole.

13,650' to 14,650' (OH)

(3) State if the well was drilled for injection or, if not, the original purpose of the well.

Well is a planned new drill for SWD

(4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.

None, well is a planned new drill

(5) Give the depth to and the name of the next higher and next lower oil or gas zone in the area of the well, if any.

Next Higher: Bone Spring 6,050'-9,347', Wolfcamp 9,347'-11,400", Atoka 11,400'-11,900', Morrow 11,900'-12,800'

Next Lower: None

APPLICATION OF DELAWARE ENERGY LLC TO REVOKE THE INJECTION AUTHORITY GRANTED UNDER SWD-1680 FOR THE ALPHA SWD NO. 1 WELL OPERATED BY ALPHA SWD OPERATING LLC, EDDY COUNTY, NEW MEXICO.

Case No. 15855

PRE-HEARING STATEMENT OF ALPHA SWD OPERATING, LLC

Alpha SWD Operating, LLC ("Alpha") submits this Pre-Hearing Statement as required by the Oil Conservation Division ("the Division").

APPEARANCES

APPLICANT

Delaware Energy, LLC Michael H. Feldewert, Esq.

Gary W. Larson, Esq. Hinkle Shanor LLP P.O. Box 2068 Santa Fe, NM 87504 glarson@hinklelawfirm.com

ATTACHMENT

STATEMENT OF THE CASE

Applicant Delaware Energy LLC ("Delaware") requests the Division to enter an order revoking the injection authority granted to Alpha under Administrative Order SWD-1680. In its application, Delaware asserts that its due process rights have been violated because (i) Alpha had knowledge of a Delaware C-108 application for injection authority for a nearby well, which Delaware submitted in October 2016, and failed to notify Delaware when Alpha submitted its C-108 application for the Alpha SWD No. 1 well on June 12, 2017, thereby violating 19.15.26.7.A and 19.15.26.8.B(2) NMAC, (ii) the Division should have required Alpha to notify Delaware of Alpha's application or notified Delaware itself, thereby also violating 19.15.26.7.A and 19.15.26.8.B(2) NMAC, and (iii) the Division prematurely issued Administrative Order SWD-1680 in violation of 19.15.26.8.C(2). Delaware's application alternatively requests that, if it does not revoke Administrative Order SWD-1680, the Division should reduce the two-year period for Alpha to commence injection under the order to a one-year period.

Alpha opposes Delaware's request for the revocation of Administrative Order SWD-1680 application on the grounds that (i) Alpha had no knowledge of Delaware's October 2016 C-108 when it filed its administrative application, (ii) in any event, the Division's rules did not require Alpha – or the Division – to notify Delaware of Alpha's submission of its C-108 application, and (iii) the Division complied with 19.15.26.8.C(2) by timely issuing Administrative Order SWD-1680 when no protests of the application were received. Alpha does not oppose Delaware's alternative request for relief.

PROPOSED EVIDENCE

<u>WITNESS</u>	ESTIMATED TIME	EXHIBITS
Kurt Knewitz	40 minutes	12
Jason Pickard	40 minutes	10
Chris Weyand (Engineer)	20 minutes	2

Alpha reserves the right to call a rebuttal witness(es) and introduce rebuttal exhibits if appropriate.

PROCEDURAL MATTERS

Alpha is not aware of any procedural matters to be resolved prior to or at the hearing.

Respectfully submitted,

HINKLE SHANOR LLP

10, T-24-S, R-28-E.

Attachments:

SWD Wells_Ruiz Appl 09_19_2018.pdf

Gentlemen:

Disregarding the ongoing legal transactions and pending decisions, the location of the proposed Ruiz presents technical issues which would be in opposition of the Division's effort to minimize interference between large capacity disposal wells and provide long-term, dependable disposal opportunity for the growing volume of produced water, thereby supporting the development of hydrocarbon resources and preventing waste. Additionally, the greater "spacing" of these large capacity wells provides the ability for infill at a later time should the measured reservoir characteristics support this decision. Based on the Division's current approach when considering the Ruiz's proposed location (see attachment) and the current standing of administrative order SWD-1680 (still valid as of this date), the Division would not administratively approved the application and would appear in opposition for the consideration of the application at hearing before either Division or Commission. Subject: Protested Application of Delaware Energy LLC Ruiz SWD Well No. 1, Unit K, Section 10, T-24-S, R-28-E.

Gentlemen: As you know, Delaware's Administrative Application for disposal into the Devonian formation through the proposed Ruiz SWD Well No. 1 in Unit K of Section 10 has been suspended since July due an objection filed by Alpha SWD premised on the issuance of Administrative Order SWD-1680, which improperly granting an injection permit to Alpha SWD for a disposal in the Devonian formation through the proposed Alpha SWD No. 1 in Unit J of Section 10. In November of 2017, the Division issued Order R-14484-A rescinding Alpha's injection authority. Division Order R-14484-A was appealed by Alpha "de novo" to the Commission. After initially issuing Order R-14484-B vacating Division Order R-14484-A on the grounds that Division Examiners lacked jurisdiction to revoke Alpha's injection authority, the Commission concluded at its September 13th meeting to withdraw Order R-14484-B and set Alpha's "de novo" appeal for a Commission hearing.

wow that Division Order R-14484-A has been reinstated pending Alpha's "de novo" appeal, Delaware requests that the Division inform whether Delaware's Application for the Ruiz SWD Well No. 1 can now be approved administratively or whether a Division hearing is necessary to address Delaware's prior-filed application.

Thank you for your attention to this matter.

Michael H. Feldewert
