**APRIL 15, 2013**

Mr. Dan Bourne  
DCP Midstream  
370 17th Street,  
Suite 2500  
Denver, CO 80202

Dear Mr. Bourne:

Based on your responses given in the "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" and a file review, the Oil Conservation Division (OCD) has determined that several of your facilities with an expired or soon to be expired permit do not require a Water Quality Control Commission (WQCC) Discharge Permit. This means that WQCC Discharge Permits **GW-127 (DCP Midstream - Magnum CS)**, **GW-142 (DCP Midstream - Sand Dunes CS)**, **GW-143 (DCP Midstream - Cal-Mon CS)**, and **GW-296 (DCP Midstream - Cedar Canyon CS)** are hereby terminated and you are not required to proceed with the renewal of these expired or soon to expire WQCC Discharge Permit. OCD will close these permits in its database.

Because these WQCC Discharge Permits are no longer valid, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will make an inspection of your facility to determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit. If you have any questions regarding this matter, please contact Glenn von Gonten at 505-476-3488.

**RE: Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit, Cedar Canyon Compressor Station, Eddy County, New Mexico.**

Mr. VonGonten:

As requested in correspondence dated May 10, 2011 available on the New Mexico Oil Conservation Division (OCD) website, DCP Midstream (DCP) hereby submits for your review and consideration a completed *Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit* for the Cedar Canyon Compressor Station. The Cedar Canyon Compressor Station has an OCD issued Discharge Permit (GW-296).

Please send all correspondence regarding this questionnaire to the attention of Dan Bourne, DCP Midstream, 370 17<sup>th</sup> Street, Suite 2500, Denver, CO 80202.

Should you have questions or need further information please call me at 303-605-2251. Thank you very much for your consideration and assistance with this matter.

Sincerely,  
DCP Midstream

## Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

*Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.*

• **Name of the owner or operator of the facility**

DCP MIDSTREAM, LP

• **Point of contact**

Name Daniel Bourne, CHMM

Telephone (303) 605-2251

Mailing address 370 17<sup>TH</sup> STREET, SUITE 2500, DENVER, CO 80202

• **Facility name** CEDAR CANYON COMPRESSOR STATION

• **Facility location**

Unit Letter, Section, Township, Range SE1/4, SE1/4, SEC 9, T24S, R29E

Street address (if any) NONE

• **Facility type**

Refinery

Gas Plant

Compressor

Crude Oil Pump Station

Injection Well

Service Company

Geothermal

Abatement

Other (describe) \_\_\_\_\_

• **Current and Past Operations** (please check all that apply)

Impoundments

Treatment Plant

Waterflood

Disposal Well

Brine Well

Wash Bay

Steam Cleaning

Groundwater Remediation

• **Facility Status**     Active     Idle     Closed

• **Does this facility currently have a discharge permit?**     Yes     No

If so, what is the permit number? GW-296

• **Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?**

(This includes process activities, equipment maintenance, or the cleanup of historic spills.)

Yes     No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

NOT APPLICABLE

• **What is the depth below surface to shallowest ground water in the area?** THERE ARE THREE WELLS WITHIN 8 MILES OF FACILITY, WITH AN AVERAGE DEPTH TO GROUNDWATER OF 48 FEET.

• **Are there any water supply, groundwater monitoring, or recovery wells at the facility?**  
NO

Water supply     Monitoring     Recovery

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? NOT APPLICABLE

• **Are abatement actions ongoing?** NO

• **Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility?**     Yes     No

If so, what are the API numbers assigned to those wells?

NOT APPLICABLE

• **Are there any sumps at the facility?**     Yes     No

Number of sumps with volume less than 500 gallons \_\_\_\_\_

Use and contents \_\_\_\_\_

Is secondary containment incorporated into the design?     Yes     No

Number of sumps with volume greater than 500 gallons \_\_\_\_\_

Use and contents \_\_\_\_\_

Is secondary containment incorporated into the design?     Yes     No

• **Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers?**     Yes     No

If so, what do those buried lines contain?

PROCESS WASTEWATER AND ENVIRONMENTAL DRAIN PIPING, NATURAL GAS INLET  
AND OUTLET PIPING, FACILITY PROCESS PIPING.

Deputy Cabinet Secretary

**Jami Bailey**  
Division Director  
Oil Conservation Division

**December 7, 2012**

Mr. Keith Warren  
370 17<sup>th</sup> Street  
Suite 2500  
Denver CO 80202

Dear Mr. Warren:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permit has already expired or will soon expire.

<b>GW-145</b>	<b>Duke Zia Gas Plant &amp; Zia Booster Station</b>
<b>GW-137</b>	<b>Duke Carrasco Compressor Station</b>
<b>GW-143</b>	<b>Duke Cal-Mon Compressor Station</b>
<b>GW-142</b>	<b>Duke Sand Dunes Compressor Station</b>
<b>GW-296</b>	<b>Duke Cedar Canyon Compressor Station</b>

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/ocd>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

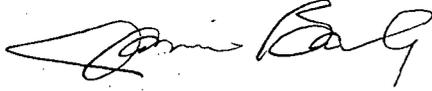

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.
