Dear Ms. Ballard:

The New Mexico Oil Conservation Division (OCD) has received OXY's report (including "Groundwater Monitoring Plan") the above-referenced site (dated May 30, 2013). The above-referenced report, submitted in partial fulfillment of 19.15.30 NMAC (Rule 30), indicates that OXY has partially met the requirements of 19.15.30 NMAC for this site. Therefore, the OCD hereby conditionally approves the proposed groundwater monitoring plan for the OXY Indian Basin Gas Plant Release Site:

- OXY must submit to the OCD the 2013 Annual Groundwater Monitoring Report for the site by **April 1, 2014**.
- Please include the OCD case # (**AP-107**) on any future correspondence to the OCD regarding this site.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
