Describe Cause of Problem and Remedial Action Taken.\*

The oil tank caught fire and the rest of the battery burnt. This is a remote facility and no fire crew responded to the blaze. Upon discovery vacuum trucks were dispatched to recover standing fluid.

Describe Area Affected and Cleanup Action Taken.\*

The battery was a total loss. Crews are working to dismantle the debris. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
