------------------	--------------	-----------------	--------------	------------------------	---------------------------	------------------------	------------------------	---------------

Latitude 32.49130 Longitude -103.69426

NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 20 B/PW	Volume Recovered 20 B/PW
Source of Release Overflow of tanks due to pump failure to stop	Date and Hour of Occurrence 01/06/2014; AM	Date and Hour of Discovery 01/06/2014; AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom? N/A	Date and Hour N/A	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	
If a Watercourse was Impacted, Describe Fully.* N/A		

Describe Cause of Problem and Remedial Action Taken.*
Pump failed to shut off, causing tanks to overflow. Pump was turned off and vacuum truck was called.

Describe Area Affected and Cleanup Action Taken.*
Release was contained within the berm area (approximately 70' x 25' around tanks), allowing the vacuum truck to recover 20 B/PW. BS&W was present on the tanks and within the gravel, so tanks were pressure washed and affected gravel within the berm was scraped and removed then hauled to a NMOCD approved facility. TPH & BTEX analytical results are under RRAL's (site ranking is 0). **Depth to Ground Water: >100' (100', Section 8, T21S-R32E, Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: > 1000', SITE RANKING IS 0. Based on analytical results, impacted soils excavated and depth to groundwater, Yates Petroleum Corporation requests closure.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
