	434	Faye Burdette No. 1	467	Marcotte No. 1
	430	Wilmuth No. 1		

Mr. Crouch:

I have reviewed the files on the releases referenced above, including the 2016 Annual Groundwater Monitoring Reports. The available information indicates ConocoPhillips Company (COPC) has met the requirements of 19.15.29-30 NMAC and no further corrective action is required. You are notified these referenced remediations are closed.

This finding by the OCD does not relieve COPC of responsibility if future information shows a threat to ground water, surface water, human health, or the environment. Further, it does not relieve COPC of responsibility for compliance with any federal, state, or local law.

Please properly plug remaining monitoring wells per requirements of the New Mexico Office of the State Engineer. Forward copies of plugging reports to me. Thanks.

Respectfully,

P.E., Hydrologist, District III
