Mr. Henderson:

I have reviewed the files on the releases referenced above. The available information indicates Hilcorp has met the requirements of 19.15.29-30 NMAC. No further corrective action is required. You are notified these referenced remediations are closed.

This finding by the OCD does not relieve Hilcorp of responsibility if future information shows a threat to ground water, surface water, human health, or the environment. Further, it does not relieve Hilcorp of responsibility for compliance with any federal, state, or local law.

Please plug remaining monitoring wells per requirements of the New Mexico Office of the State Engineer. Thanks.

Respectfully,

P.E., Hydrologist, District III
