Dylan,

Per our conversation a few minutes ago, attached please find an initial C-141 for the release described below.

Thank you for your time.

Respectfully,

Ben J. Arguijo

To Whom It May Concern:

Trinity Oilfield Services will be conducting a final sampling event at the OXY release site known as the Mesa Verde 8 Federal 2 CTB Water Transfer Line on Monday, 4/8/2019.

The release is located in Unit Letter "L" (NW/SW), Sec. 6, T 24S, R 32E, in Lea County. The GPS coordinates of the site are 32.24580,-103.72240.

A 1RP number has not been assigned to the release as of yet. It occurred on 3/2/2019 when a third-party trackhoe struck a 3-inch poly water transfer line from the Mesa Verde 8 Federal 2 CTB to the Sundance 1 Federal 3 CTB. Approximately 15 barrels of produced water were released.

The release has been fully delineated and excavated. We are currently in the process of hauling all excavated soil to Lea Land for disposal.

Please let me know if you have any questions or concerns.

Thank you for your time and consideration.

Respectfully,

Ben J. Arguijo
