**Subject:** RE: OWL releases - New mexico

William,

The NMOCD tracking number for the Bert Madera SWD release is **1RP-5498**.

Also, in the future could you please provide the OGRID number you would like us to use for OWL? There is a few options in the system so it would be good to know which is the correct one for these cases.

Thanks

**Dylan Rose-Coss**

Dylan,

Has a RP # been issued for the Bert Madera SWD release? Please see highlighted information below.

Thank you,

Great,

Thanks Will. This is helpful.

Regards,

**Dylan Rose-Coss**

**Subject:** [EXT] OWL releases - New mexico

Dylan,

Per our conversation, I wanted to follow up and clarify our open projects in New Mexico. I know we were both confused on which projects were approved, issued an RP number, etc.

1RP-5447 - Cities Federal SWD

- A) C-141 form submitted and issued by OCD;
- B) BLM has requested an archeological survey be conducted on property prior to surface disturbance (delineation sampling, remediation, etc.); and
- C) BLM has requested a delineation and site characterization workplan prior to delineating the release.

1RP-5470 - Redhills Pipeline

- A) C-141 form submitted and issued by OCD;
- B) BLM has approved and stated an archeological survey has been completed for the property. KJE/OWL can proceed with delineation and site characterization activities; and
- C) BLM has requested a delineation and site characterization report be submitted detailing delineation activities for the release. Per our conversation, I'll provide the report to OCD at the time of BLM submittal.

1RP-5489 - Fulfer Well Pad

- A) C-141 form submitted and issued by OCD;
- B) BLM has not reviewed database/historical sources detailing archeological surveys; and,
- C) KJE will continue communication with BLM to confirm/deny presence of archeological surveys.

RP # pending - Bert Madera

- A) C-141 form submitted this AM by KJE;
- B) BLM stated no federal involvement with surface or subsurface; and,
- C) KJE is scheduling remediation activities (dig and haul) with OWL and will collect confirmation samples subsequent to excavation activities.

I hope this helps any miscommunication the two of us had this morning. As always, if you have any questions, please don't hesitate to ask. Have a great weekend!

Thank you,
