Subject: RE: (C-141 Final) Tenderloin Federal Com #004H (30-025-43891) 03-02-2019 (1RP-5404)

Ms. Grant,

The NMOCD has reviewed the closure request for Tenderloin Federal Com #004H (30-025-43891) release on 03/02/2019. The available information indicates that the requirements of 19.15.29 NMAC have been met and no further corrective action is required. NMOCD considers administrative order **1RP-5404** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Dylan Rose-Coss

Mr. Rose-Coss/Ms. Weaver/Mr. Mann,

It appears I forgot to attach the Final C-141 with my request for closure.
Please see the attached Final C-141 to accompany the e-mail below.
I apologize for any inconvenience this may have caused.

Thank you,

DeAnn Grant

Mr. Rose-Coss/Ms. Weaver/Mr. Mann,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

DeAnn Grant
