Ms. Grant,

The NMOCD has reviewed the closure request for the Tiger 11 Federal #001H (30-025-40430) release which occurred on 09/26/2019. The available information indicates that the requirements of 19.15.29 NMAC have been met and no further corrective action is required. The NMOCD considers administrative orders **1RP-5231** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Dylan Rose-Coss

Ms. Hernandez/Ms. Tucker,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

DeAnn Grant
