Subject: RE: (Extension Request) COG Magnum Pronto State Com #004H (1RP-5253)

Ms. Haskell,

The NMOCD accepts the extension of time request to submit a closure report and complete remediation activities for the Magnum Pronto State Com #004H (1RP-5253) site. The Division will expect a closure report for the release on or before September 13, 2019 unless otherwise notified.

Thanks,

Dylan Rose-Coss

Subject: [EXT] (Extension Request) COG Magnum Pronto State Com #004H (1RP-5253)

Mr. Rose-Cross,

Under the new spill rule a closure report was due for the above release on 6/13/19. Some of our contractors are finishing up some other remediation work and COG is currently scheduling this remediation. COG is requesting a three month extension until September 13, 2019 in order to conduct remediation activities and prepare a closure report.

Thank You,

Becky Haskell

Subject: [External] RE: (Alternative Sampling Plan) COG Magnum Pronto State Com #004H (1RP-5253) - Delineation Workplan

Mrs. Haskell,

OCD approves a sample area of 1x 5pt composite sample every 625sqft (25x25) if there are any stained or discolored areas please ensure those areas are include in the 5pt composite sample or a separate grab sample of those areas are collected.

Please include this approval in your final C-141 closure report.

OCD approval does not relive Concho of any other requirements imposed by other regularly agencies.

Subject: [EXT] (Alternative Sampling Plan) COG Magnum Pronto State Com #004H (1RP-5253) - Delineation Workplan

Mr. Smith,

As per our phone conversation, COG would like to propose an alternative sampling as follows: upon NMOCD approval COG will collect a five (5) point composite sample from the floor and sidewalls of the excavation every 625 square feet (or every 25 feet by 25 feet). If this is acceptable please reply to this email and we will get it scheduled for remediation. If you have any questions or concerns please let me know.

Cliff,

Thanks for the phone call as discussed the proposed sampling method was not well defined it just said 50' intervals. What does that mean 50' grab samples? 50' aliquots how many per composite etc? COG may submit an alternative sampling plan for approval per 19.15.29.12 NMAC.

The sampling plan can be sent as a reply to this email and the approval can be include in the final C-141 report.

If you have any other questions please let me know.

Subject: RE: (Resubmittal) COG Magnum Pronto State Com #004H (1RP-5253) - Delineation Workplan

DeAnn,

OCD has reviewed the Work plan for COG Magnum Pronto State Com #4H received on 3/15/19 and has approved it with the following conditions of Approval

- COG will collect confirmation samples per 19.15.29.12.D NMAC to include base and sidewalls of the excavation.
- COG will provide sample notification to OCD District 1 per 19.15.29.12.D.1.(A)
- As described in the Work plan, COG will submit a closure report no later than June 15, 2019. COG may request additional time per 19.15.29.12.B(2) if applicable.

This approval, along with the work plan will be scanned into 1RP-5253 asap.
