Ashley Noonan,

The OCD has processed the C-141 form submitted for the natural gas release at the Jade 19-39-29 State Com 003H facility. The tracking number for the release is 1RP-5549. Because of the nature of the release there is no remediation activity possible and the case has also been administratively closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

If you should have any additional questions please feel free to ask.

Thanks,

**Dylan Rose-Coss**
