All,

The NMOCD grants a 60 day extension of time to complete the land arch survey, further site assessment, remediation work, and completion of a remediation work plan or closure report for the aforementioned site (1RP-5457). The division will expect the report on, or before September 9, 2019.

Thanks,

Dylan Rose-Coss

Subject: [EXT] Extension Request - XTO - Eunice Monument South Unit #306 (1RP-5457)

All,

XTO is requesting an extension fo the 90-day deadline of July 12, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Eunice Monument South Unit #306 (1RP-5457). The release was discovered April 13, 2019 and initial site assessment was begun April 15, 2019. Fluids from the release reached beyond the well pad across the lease road and into the surrounding pasture. A Right of Entry (ROE) Permit was submitted to the State Land Office (SLO) on May 24, 2019. Approval of the ROE permit and an arch survey of the area are still pending. XTO has sent regular reminders to the SLO to ensure timely approval. The most recent reminder was sent

June 25, 2019. To provide enough time for the permit approval land arch survey, further site assessment, remediation work, and completion of a remediation work plan or closure report, XTO requests an extension of the deadline to October 12, 2019.

Thanks,

Tacoma Morrissey
