Ms. Ager,

The NMOCD has reviewed and accepts the closure request for the Perla Negra CTB (1RP-5275) release.

Note: this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks for your time and attention remediating this release,

Best,

Dylan Rose-Coss

Hello,

A closure request was originally submitted by XTO on February 11, 2019 to NMOCD for the Perla Negra CTB (1RP-5275). This occurred at the time Christina Hernandez was leaving NMOCD. The request was resubmitted to District 1 on February 11, 2019, but no response has been received. Can you please check on the status of this report and review it for closure?

Thank You,
Ashley
