Mr. Loudermilk,

The OCD approves of the closure plan provided for the Centennial Resource Development's Godfather 36 State Com No. 1H site (1RP-5227).

No further action is required by the operator to comply with 19.15.29 NMAC requirements.

However, OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Thanks,

Dylan Rose-Coss
