Good Afternoon Mr. Settle,

We have received your Closure Report for **2RP-5547 Jackson B Federal #51**. This Closure Report is approved. In the future, when determining the closure criteria, the referenced groundwater source needs to be within a ½ mile radius of the site. In this case, since depth to groundwater was not identified within a ½ mile radius, the closure criteria would follow the limits for groundwater ≤ 50 feet below grade.

Please let me know if you have any questions.

Thank you,

**Cristina Eads**
