Subject: reclamation plant

i would like to address a problem in lea county it is the jenex operating reclamation plant half way between hobbs and eunice first i was employed as a driver at the hobbs plant i am no longer as of the end of june i was employed with jenex for over three years first in pearsal texas we closed that plant down at the end of 1998 and i came to hobbs to stay with the company the plant in hobbs has very poor management they have numeralous times opened valves on tanks and drained brine water on the ground flooding the whole yard so they would have to pay to dispose of it when i say they that means the plant treater and the manager has been there watching him do it there has been lots of oil spills over the past year that was never reported the last one just last week and it was not no little spill either then it rained and the oil went everywhere even started to go out the gate of the yard i finally had enough of working in the mess plus worked the legal limit by the federal dot regulations and they let me go because i would not keep on working. they say there is no water under the property there but thats beside the point its illegal to do what they are doing its a very danerous work place for employees to be employed at the management in denver co {the owners} will not do anything about the place i have always believed it could be a good place for people in lea county to work if it just had better management the place is a danger to people and the enviroment as it is right now i hope maybe you can do something about the situation there thank you

Dear Mr. Skaggs,

This letter shall serve as authorization by Dakota Resources, Inc. to Jenex Operating to transport produced lease fluid from Tank No. 118217 (gun barrel) on the above referenced lease. This produced fluid is high in BS&W and cannot be sold to the regular purchaser of our produced crude oil. No fluids shall be removed from Tank No. 118218 (oil sales tank) on this lease by Jenex.

Thank you for your assistance. Should you have any questions, please do not hesitate to call.

Very truly yours,

Attn: Paul Skaggs

Re: T.C. Weltmer No. 2
TX RRC No. 021061
Gaines County, Texas

Dear Mr. Skaggs,

This letter shall serve as authorization by Dakota Resources, Inc. to Jenex Operating to transport produced lease fluid from Tank No. 118217 (gas barrel) on the above referenced lease. This produced fluid is high in BS&W and cannot be sold to the regular purchaser of our produced crude oil. No fluids shall be removed from Tank No. 118218 (oil sales tank) on this lease by Jenex.

Thank you for your assistance. Should you have any questions, please do not hesitate to call.

Very truly yours,

A handwritten signature in cursive script that reads "Pam Morpew".

Dear Mr. King

As we discussed on the phone, Estill Salt Water Disposal has been accumulating oil and BS&W for the past two or three years. This BS&W and oil was accumulated from the emergency overflow pit tank bottoms and vac truck clean-out. There was 1824.5 BBLs with a net oil of 946.34 BBLs. Our December 1993 P-18 #8A0142 will reflect 338 BBLs, short fall of 608.34 BBLs.

Mr. King, I was really surprised to find out the oil content. I thought it was mostly iron sulfate and water. Carroll Porter with Jenex Operating in Hobbs, New Mexico will be processing and transporting the product.

In the future, we will watch it alot closer.

Thank you

W.A. Buster Estill
