CERTIFIED MAIL RETURN RECEIPT REQUESTED

Mr. Stan Watson Watson Treating Plant P. O. Box 75 Tatum, New Mexico 88267

RE: Relocation of Treating Plant from Sec. 34, T8S, R35E, to Sec. 12, T8S, R34E, Roosevelt County.

Dear Mr. Watson:

Your application for the relocation of Watson Treating Plant from Sec. 34, T8S, R35E to Sec. 12, T8S, R34E, Roosevelt County, is hereby approved. The approved application consists of material submitted January 21 and February 17, 1988. Public notice was issued January 18 in the Portales News-Tribune; no comments were received by the Oil Conservation Division (OCD).

The application for relocation was submitted and approved pursuant to Rule 312 of the Oil Conservation Division Rules and Regulations. Please be advised that approval for the relocation of the treating plant does not relieve you of liability should your operation result in actual pollution of surface or ground waters which maybe actionable under other laws and/or regulations.

There will be no routine or reporting requirements other than those required by Rule 312.

Please note that the old location must be cleared and inspected by OCD Hobbs District personnel before the new \$25,000 bond can apply to the new location; operation cannot begin at the new location until the bond is in force.

Sincerely,

William J. LeMay

Director

Re: Location Transfer of Treating Plant

Dear Ms. Watson:

The Oil Conservation Division has received your request for transfer of the Watson treating plant from the SE/4 NW/4 of Section 34, Township 85, Range 35E, Roosevelt County, to the S/2 SE/4 of Section 5, Township 145, Range 36E, Lea County.

In order to approve the transfer, we require that all the information listed in Rule 312 be furnished to this office. This information includes a plat showing the location of the plant, a description of the plant along with a diagrammatic plan of the plant layout, location of water wells, notification of landowners within one half (1/2) mile, etc. A copy of Rule 312 is enclosed for your quidance.

After all the information is submitted and the Division Director gives written approval of the transfer of the location of the treating plant, the \$25,000 bond can be transferred to cover the new location prior to start-up of operation. This transfer of the bond will be approved only upon cleanup and restoration of the Roosevelt County site in accordance with Rule 312.

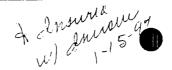

If you have any questions, feel free to contact me at 827-5884.

Sincerely,

Jami Bailey Geologist

The plat and maps within this transfer request, illustrate our newly proposed site. Watson's will remain the owner/operator of the plant, and only want to relocate for distance and feasability reasons.

The treating plant process of tank bottoms and unsalable crude oil will be carried on with our propane heater. The additional tanks will be used for sorting oil rather than capacity storage.

The unmerchantable fluids will be reported and taken to Parabo, Inc. at Eunice, NM.

Thank you,

Stan Walson

Hobbs, New Mexico

Watson Treating Plant, Inc.

P. O. Box 75

Tatum, New Mexico 88267

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION DIVISION FOR THE PURPOSE OF CONSIDERING:

CASE NO. 6616 Order No. R-6095

APPLICATION OF WATSON TREATING PLANT FOR AN OIL TREATING PLANT PERMIT, ROOSEVELT COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 9 a.m. on August 8, 1979, at Santa Fe, New Mexico, before Examiner Richard L. Stamets.

NOW, on this 10th day of September, 1979, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

- (1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.
- (2) That the applicant, Watson Treating Plant, seeks authority to construct and operate a chemical and heat-treatment type oil treating plant in the SE/4 NW/4 of Section 34, Township 8 South, Range 35 East, NMPM, Roosevelt County, New Mexico, for the reclamation of up to approximately 200 barrels of sediment oil per day to be obtained from tank bottoms, disposal water, and waste pits.
- (3) That dikes, dams and/or emergency pits should be constructed around the plant capable of holding the entire capacity of all tanks and vessels at the plant location in order that sediment oil, reclaimed oil, or waste oil cannot escape from the immediate vicinity of such plant.
- (4) That the proposed plant and method of processing will efficiently process, treat, and reclaim the aforementioned waste oil, thereby salvaging oil which would otherwise be wasted.

(5) That the subject application should be approved as being in the best interests of conservation.

IT IS THEREFORE ORDERED:

(1) That the applicant, Watson Treating Plant, is hereby authorized to install and operate a chemical and heat-treatment type oil treating plant in the SE/4 NW/4 of Section 34, Township 8 South, Range 35 East, NMPM, Roosevelt County, New Mexico, for the purpose of treating and reclaiming sediment oil to be obtained from tank bottoms and waste pits;

PROVIDED HOWEVER, that the continuation of the authorization granted by this order shall be conditioned upon compliance with the laws of the State of New Mexico and the rules and regulations of the New Mexico Oil Conservation Division;

PROVIDED FURTHER, that prior to commencing operation of said plant, the applicant shall file with the Division a performance bond in the amount of \$10,000.00 conditioned upon substantial compliance with applicable statutes of the State of New Mexico and all rules, regulations and orders of the Oil Conservation Division.

- (2) That the operator of the above-described oil treating plant shall clear and maintain in a condition clear of all debris and vegetation a fireline at least 15 feet in width and encircling the site upon which the plant is located.
- (3) That dikes, dams and/or emergency pits shall be constructed around the plant capable of holding the entire capacity of all tanks and vessels at the plant location and capable of preventing the escape of any sediment oil, reclaimed oil, or waste oil from the immediate vicinity of said plant.
- (4) That the disposal of waste water accumulated in conjunction with the operation of the above-described plant on the surface of the ground, or in any pit, pond, lake, depression, draw, streambed, or arroyo, or in any watercourse, or in any other place or in any manner which will constitute a hazard to any fresh water supplies is hereby prohibited.
- (5) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

-3-Case No. 6616 Order No. R-6095 DONE at Santa Fe, New Mexico, on the day and year hereinabove designated. STATE OF NEW MEXICO OIL CONSERVATION DIVISION JOE D. RAMEY Director SEAL fd/
