Ms. Martyne Kieling
New Mexico Oil Conservation Division
1220 South St. Francis Drive
Sante Fe, NM 87505

RE: HYDROSTATIC TEST WATER DISCHARGE INFORMATION/REPORT

Dear Ms. Kieling:

Enclosed please find a spreadsheet with the information required to be reported under the Oil Conservation Division (OCD) permit to discharge hydrostatic test water. As in previous years, the majority of water was recovered and sent to an OCD approved disposal site.

The spreadsheet provides information on hydrostatic testing from September '01 through August '02. If you have any questions or need additional information, please call me at 505-634-4956 or Clara Garcia at 505-634-4606.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Harvey", written over the word "Sincerely,".

Mark Harvey
Project Coordinator

Enclosures – Hydrotest Spreadsheet

2001 / 2002 HYDROSTATIC TEST WATER DISPOSAL

9/1/01-8/31/02

RE: SUMMARY REPORT FOR HYDROSTATIC TEST WATER DISCHARGE – Permit #HBP-NM-013

Dear Ms. Kieling:

Enclosed please find a spreadsheet with a list of sites where Williams performed a hydrostatic test of new pipe during the reporting period of 2000-2001. All water used was provided by a contractor who purchased the required volume from the City of Bloomfield.

The hydrostatic test water was either recovered and hauled for commercial disposal or, where noted, discharged on location. Listed volume units are gallons.

This submittal is intended to satisfy Williams' reporting obligation under the referenced permit. If you have questions or if the Division requires additional information, please contact me at 505-632-4409.

Respectfully,

A handwritten signature in black ink, appearing to read "Mark Harvey".

RE: HYDROSTATIC TEST WATER DISCHARGE REPORTS

Dear Ms. Keiling:

Please find enclosed hydrostatic test water annual reports for 1997, 1998, and 1999. The reports list the facility name, location, and volume of water used in testing. As noted, the vast majority of water used was recovered and disposed of at an OCD permitted disposal site. These reports are intended to satisfy the NMOCD reporting requirements as specified in the Williams Energy Services discharge permit.

The attached reports reflect activities conducted by Williams Field Services and Williams Production. Hydrostatic tests performed at former Mid-America Pipeline sites will be reported under separate cover by December 8, 2000.

Williams appreciates the Division's willingness to accept the reports at this time. If you have any questions or need additional information, please call me at 505-632-4409.

Respectfully,

Mark Harvey
Environmental Specialist

enclosures: Hydrostatic Reports for 1997,1998,1999
