RE: Hydrostatic Test Water Discharge Permit HI-093

Dear Mr. Hall:

The New Mexico Oil Conservation Division has received and reviewed your request for a 90-day extension on the above permit. This request is hereby approved.

All conditions attached to the original permit HI-093 will remain in effect for the duration of the additional 90 days.

If you have any questions, contact me at (505) 476-3492 or [emartin@state.nm.us](mailto:emartin@state.nm.us)

Mr. David Bays  
Enterprise Products Operating, LP  
614 Reilly Avenue  
Farmington, NM 87401

Dear Mr. Bays:

The New Mexico Oil Conservation Division (NMOCD) has received your application, dated January 18, 2005 for a temporary permit to discharge water used to hydrostatically test new pipeline. The NMOCD reference for this permit is HI-093. This request is hereby approved with the following conditions and understandings:

1. The test water will be discharged in Section 33, Township 30 North, Range 7 West and the volume of the discharge will be 316,500 gallons.
2. The test water will be discharged at a controlled rate and into a structure that will prevent erosion.
3. The water has been used to hydrostatically test new pipe.
4. Potable water will be used.
5. The discharged fluids will not be allowed to migrate to a water of the state or a water of the U.S.
6. The Bureau of Land Management is the landowner at the point of discharge. The discharge will be maintained within the boundaries of their property.

Pursuant to WQCC Regulation 20 NMAC 6.2.3106.B, this approval will allow Enterprise Products Operating, LP (Enterprise) to discharge without an approved discharge permit for a period not to exceed 120 days commencing January 15, 2005. Discharge must cease within the 120-day period, or a formal discharge permit will be required. Pursuant to WQCC Regulation 20 NMAC 6.2.3114, an application fee (\$100) and a temporary permit fee (\$150) are due at time of application. These fees have not been received by the NMOCD and are due and payable upon receipt of this approval. If this site is to be used for more than one discharge, Enterprise must make a separate application for the additional discharge.

This approval does not relieve Enterprise of liability should their operation result in pollution of surface water, groundwater, or the environment, nor does it relieve Enterprise of its responsibility to comply with any other federal, state or local regulations.

If there are any questions, please contact Ed Martin (505) 476-3492 or [emartin@state.nm.us](mailto:emartin@state.nm.us)

Sincerely,

A handwritten signature in black ink, appearing to read "Roger C. Anderson". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
