**Subject:** RE: Pure Resources Work Plan

Dear Mr. Seay:

The OCD hereby approves of the attached clean-up plan with the following conditions:

1. The City of Lovington and OCD shall be notified of all significant activities during this project. All reports required by OCD shall also be copied to the OCD District office and the City of Lovington.
2. Any waste removed during the project shall be disposed of at an approved OCD site.
3. Pure will notify the OCD Santa Fe office, OCD District office and the City of Lovington at least 72 hours in advance of all scheduled activities such that there is adequate opportunity to witness the events and/or split samples during normal business hours.
4. Pure shall submit an interim report by January 15, 2004 or sooner, showing the final sidewall and bottom hole sampling results, with documentation and photos. Pure shall receive OCD approval before back filling any excavated area.

Please be advised that NMOCD approval of this plan does not relieve (Pure Resources) of liability should their operations fail to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve (Pure Resources) of responsibility for compliance with any other federal, state, or local laws and/or regulations.

RE: Pure Resources  
 Pure 106 Leak Site

Mr. Price:

Find within work plan for the Pure leak site, which was inspected by the City of Lovington and others on November 7.

Pure will follow guidelines set forth by the OCD in remediating leaks, spill and releases.

If you have any question or need additional information, please call.

Pure will start cleanup immediately, upon approval.

Thanks,

12/5/03
