RE: Final San Juan Basin Pit Closure Report

Dear Ms Ebert:

The New Mexico Oil Conservation Division has completed a review of Conoco's June 2, 1998 pit closure/soil remediation report for the Mobil Federal #1, J-36-T24N-R01W, 30-039-08170, submitted under a cover letter from Blagg Engineering, Inc. The pit closure/soil remediation activities at the Mobil Federal #1 site are approved.

Please be advised OCD approval does not relieve Conoco of liability if remaining contaminants are found to pose a future threat to surface water, ground water, human health or the environment. In addition, OCD approval does not relieve Conoco or responsibility for compliance in any other state, federal or local laws and/or regulations.

Yours truly,

Denny G. Foust
Environmental Geologist
