RE: PIT CLOSURE/GROUND WATER MONITORING REPORTS

Dear Ms. Hutton:

The New Mexico Oil Conservation Division (OCD) has reviewed Cross Timbers Oil Company's (CTOC) February 17, 1999 "CROSS TIMBERS OIL CO. (AMOCO) PIT CLOSURE/GROUNDWATER MONITORING REPORTS, SAN JUAN COUNTY, NEW MEXICO" which was submitted on behalf of CTOC by their consultant Blagg Engineering, Inc. This document contains the results of CTOC's investigation, remediation and monitoring of ground water contamination related to the disposal of oilfield wastes in unlined pits at 20 sites in the San Juan Basin and requests closure of the remedial actions.

Below is the OCD's review of the above referenced documents:

A. The soil and ground water remedial actions at the sites listed below are satisfactory and the OCD approves of the closure of these pit sites. Please be advised that OCD approval does not relieve CTOC of liability if remaining contaminants pose a future threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve CTOC of responsibility for compliance with any other federal, state, tribal or local laws and regulations.

| 18. | Trujillo GC A#1 (Blow pit) | Unit C, Sec. 28, T29N, R10W. |

B. The sites listed below have chloride and/or total dissolved solids (TDS) contamination of ground water in excess of New Mexico Water Quality Control Commission (WQCC) standards. In addition, the downgradient and/or lateral extent of chloride and/or TDS contamination in ground water at these sites has not been completely defined. Therefore, approval of the closure actions at these sites is denied. The OCD requires that CTOC investigate the extent of and remediate these contaminants at each site pursuant to the previously approved ground water management plan.

RE: FINAL SAN JUAN BASIN PIT CLOSURE REPORTS

Dear Mr. Shaw:

The New Mexico Oil Conservation Division (OCD) has completed a review of 25 Amoco Production Company (Amoco) "PIT REMEDIATION AND CLOSURE REPORTS" with April 21, 1994 and April 25, 1994 dates.

The OCD's review of the above referenced document is addressed below:

A. The pit closure/soil remediation activities conducted at the sites listed below are **approved**.

1. Bruington GC B#1E (Blow pit) Unit O, Sec. 15, T29N, R12W.
2. Bruington GC B#1E (Separator pit) Unit O, Sec. 15, T29N, R12W.

Please be advised that OCD approval does not relieve Amoco of liability if remaining contaminants are found to pose a future threat to surface water, ground water, human health or the environment. In addition, OCD approval does not relieve Amoco of responsibility for compliance with any other federal, state or local laws and/or regulations.

B. The pit remedial activities conducted at the sites listed below are satisfactory. However, according to the reports, onsite landfarming and/or composting actions are still continuing at the sites. Subsequently, the OCD cannot issue final closure approval at this time and approval of closure actions at these sites is **denied**. Please resubmit final closure reports for these sites upon completion of the landfarming and/or composting activities. The final reports will include the results of the soil remediation levels achieved, the laboratory analyses and associated quality assurance/quality control data and the disposition of the remediated soils.

1. Abrams GC E #1E (Blow/separator) Unit M, Sec. 30, T29N, R10W.
2. Abrams L #1A (Separator pit) Unit I, Sec. 26, T29N, R10W.

- | | | |
|-----|------------------------------------|------------------------------|
| 3. | Black GC #1E (Blow pit) | Unit G, Sec. 29, T29N, R10W. |
| 4. | Eaton A #001 (Separator pit) | Unit P, Sec. 25, T29N, R11W. |
| 5. | Garcia GC B#1 (Separator pit) | Unit J, Sec. 21, T29N, R10W. |
| 6. | Garcia GC B#1 (Blow pit) | Unit J, Sec. 21, T29N, R10W. |
| 7. | GCU #230E (Separator pit) | Unit O, Sec. 23, T28N, R12W. |
| 8. | Hare GC C#1 (Blow pit) | Unit M, Sec. 25, T29N, R10W. |
| 9. | Hare GC C#1 (Separator pit) | Unit M, Sec. 25, T29N, R10W. |
| 10. | Harold B Chapson (Separator pit) | Unit J, Sec. 28, T29N, R10W. |
| 11. | Lefkovitz GC B#1E (Separator pit) | Unit P, Sec. 25, T29N, R10W. |
| 12. | Lefkovitz GC B#1E (Compressor pit) | Unit P, Sec. 25, T29N, R10W. |
| 13. | Lefkovitz GC B#1E (Blow pit) | Unit P, Sec. 25, T29N, R10W. |
| 14. | Maddox GC A#1 (Blow pit) | Unit M, Sec. 27, T29N, R10W. |
| 15. | Maddox Gas Unit B#1 (Blow pit) | Unit O, Sec. 27, T29N, R10W. |
| 16. | Pollock GC D#1 (Separator pit) | Unit M, Sec. 27, T29N, R10W. |
| 17. | Sanchez GC B#1E (Separator pit) | Unit E, Sec. 28, T29N, R10W. |
| 18. | VCU #26 (Blow pit) | Unit D, Sec. 22, T28N, R04W. |

C. The final pit remedial contaminant levels at the sites listed below are in excess of the OCD's recommended remediation levels. Consequently, the OCD cannot issue final closure approval and approval of closure actions at these sites is **denied**. The OCD requests that Amoco address the extent of the remaining contamination at these sites. The OCD will reconsider issuing closure approval upon resubmission of pit closure forms which address the remaining extent of contamination at the sites. The resubmitted forms should include the completed form and all pertinent information related to the extent of contamination, the results of the soil remediation levels achieved, the results of the soil remediation levels achieved, the laboratory analyses and associated quality assurance/quality control data and the disposition of the remediated soils.

| 1. | Morris GC C#1E (Separator pit) | Unit I, Sec. 26, T29N, R10W. |
|----|--------------------------------|------------------------------|

D. Ground waters at the sites listed below are contaminated with petroleum related constituents in excess of New Mexico Water Quality Control Commission ground water standards. In addition, the extent of ground water contamination at the sites has not been determined. Therefore, approval of these pit closure forms is **denied**. The OCD requests that Amoco investigate the extent of contamination and, if necessary, remediate contaminated ground water pursuant to Amoco's November 21, 1995 ground water investigation/remediation work plan which was approved by the OCD on November 29, 1995.

| 1. | Baca GC A#1A (Separator pit) | Unit F, Sec. 26, T29N, R11W. |
| 2. | Masden GC #1 (Separator pit) | Unit A, Sec. 28, T29N, R11W. |
| 3. | State GC BS #1 (Separator pit) | Unit K, Sec. 23, T29N, R11W. |
| 4. | State GC BS #1 (Separator pit) | Unit K, Sec. 23, T29N, R11W. |

Mr. B.D. Shaw
January 16, 1997
Page 3

To simplify the approval process for both Amoco and OCD, the OCD requests that Amoco submit all future pit closure reports only upon completion of all closure activities including onsite landfarming or composting of contaminated soils. The reports should include the completed form and all pertinent information related to the extent of contamination, the results of the soil remediation levels in the pits and landfarms, all laboratory analyses and associated quality assurance/quality control data and the disposition of all remediated soils.

If you have any questions, please call me at (505) 827-7154.

Sincerely,

William C. Olson
