**RE: Potential Groundwater Impact
XTO Energy Inc. (XTO)**

**Romero GC A # 1 Well site
Legal Description: Unit K, Sec. 27, T29N, R10W
San Juan County, New Mexico**

Dear Mr. Olson:

Apparent groundwater impact at the above referenced well site was observed during removal/reinstallation of a below grade steel tank pit associated with the separator unit on July 14, 2003. A verbal notification was made to your office the following day (July 15, 2003) by BEI. XTO has conducted aggressive remediation of both impacted soil and groundwater by way of excavation and pumping via water hauling truck, initiated on July 17, 2003. Depth to groundwater is estimated at seven (7) feet below grade. Monitor well installations will be conducted upon completion of the excavation, backfilling, and surface equipment reinstallation.

If you have any questions concerning this information, please do not hesitate to contact Nelson Velez or myself at (505) 632-1199. Thank you for your cooperation.

Respectfully submitted,
Blagg Engineering, Inc.

RE: Cross Timbers Oil Co. (Amoco) Pit Closure/Groundwater Monitoring Reports
San Juan County, New Mexico

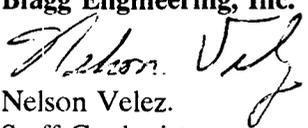

Dear Mr. Olson:

The attached reports on pit closure/groundwater monitoring at nineteen (19) previously owned Amoco well locations is being submitted for your review. These well sites have been acquired by Cross Timbers Co. as of December, 1997. The well names are listed on the following page of this correspondence. The reports for each individual well site are laid out in the following order;

- 1) Pit Closure documentation and/or a brief description of all activities which occurred during the investigation, sampling procedures, and/or interpretations, conclusions, and possible recommendations.
- 2) A summary spreadsheet (when applicable) containing laboratory BTEX, general chemistry (if applicable), and any other pertinent information.
- 3) When applicable: site and groundwater gradient maps, boring logs, and monitor well detail schematics.
- 4) Laboratory reports for each sampling event.
- 5) Quality Assurance/Quality Control data.

A copy of this report is also being submitted to Mr. Denny Foust at the Aztec NMOCD office. If you have any questions or comments concerning this report, please contact Blagg Engineering at 632-1199.

Respectfully submitted,
Blagg Engineering, Inc.

Nelson Velez.
Staff Geologist
